

19 JAN 1988

Wesmar Company  
1451 NW. 46th Street  
Seattle, WA 98107

Attention: Doug Newman

Gentlemen:

Subject: Supersan  
EPA Registration No. 10428-17  
Your Amendment Dated October 3, 1986

The amendment referred to above, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable provided that you:

- Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

If this condition is not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(a). Your release for shipment of the product constitutes acceptance of this condition.

A stamped copy of the label is enclosed for your records.

Sincerely yours,  

Jeff Kempter  
Product Manager (32)  
Disinfectants Branch  
Registration Division (TS-767C)

QUALITY-SERVICE

### STORAGE AND DISPOSAL

- Do not contaminate water, food, or feed by storage disposal.
- Do not store on side.
- Avoid creasing or impacting of side walls.

### PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray or mixture of rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

### CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities by burning. If burned, stay out of smoke.

**Metal Container:** Triple rinse (or equivalent), then offer for recycling or reconditioning, or dispose of in a sanitary landfill, or other procedures approved by state and local authorities. (If container is 1 gallon or less, use this container disposal statement.)

Do not reuse empty container (bottle, can, bucket). Wrap container and put in trash.

ACCEPTED  
with COMMENTS  
in EPA Letter Dated

JAN 19 1988

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
amended, for the pesticide  
registered under EPA Reg. No.  
10428-17

**PRECAUTIONARY STATEMENTS  
HAZARDOUS TO HUMANS  
AND DOMESTIC ANIMALS**

## DANGER

Keep out of Reach of Children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed.

# SUPERSAN

**Food Processing and Farm Use; Removes Milkstone**

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SUPERSAN is an acid cleaner sanitizer for use in food processing and dairy equipment in water up to 600 ppm hardness (as CaCO<sub>3</sub>). Do not rinse with water. For heavily soiled equipment, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty. For mechanical application, use solution may not be reused for sanitizing applications.

**Cleaning Bulk Milk Tanks, Dairy and Food Processing Equipment**  
Sanitizing—To sanitize hard non-porous food contact surfaces, such as milk tanks and milking equipment, clean with a good detergent and rinse thoroughly, dilute 1 oz. of SUPERSAN in 4 gallons of water (150 ppm active quaternary) and apply with a cloth, brush, mechanical spray device (spray surface until thoroughly wetted) or by immersion. Treated surfaces should remain wet for at least 60 seconds followed by adequate draining and air drying. Do not rinse with water.

**Grade A Pasteurized Milk Ordinance**  
At 1 oz./4 gallons, SUPERSAN fulfills the criteria of Appendix F of the Grade "A" Pasteurized Milk Ordinance's 1978 Recommendations of the U.S. Public Health Services in waters up to 600 ppm of hardness calculated as CaCO<sub>3</sub>, when evaluated by the AOAC Germicidal and Detergent Sanitizer Method against *Escherichia coli* and *Staphylococcus aureus*.

The udders, flanks and teats of dairy cows can be sanitized by washing with a solution of 1 oz. SUPERSAN in 4 gallons of warm water. No potable water rinse is required. Use a fresh towel for each cow. Avoid contamination of sanitizing solution by dirt and soil. Do not dip used towel back into sanitizing solution. When solution becomes visibly dirty, discard and provide fresh solution.
