TEKTAMERR 38 O.F.

TEKTAMER 38 O.F. is a water treatment microbiocide for oilfield subsurface water injection systems and well drilling fluids. The chemical name of TEKTAMER 38 O.F. is 1, 2-dibromo-2,4-dicyanobutane*.

TYPICAL PROPERTIES

Active ingredient	98% minimun
	Off-white to light tan powder
Bulk density (lb/ft ³)	
Melting point	Milding pungent
Water solubility @ 20°C	1700 ppm

DIRECTION FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labelling.

For Injection Systems

To control sulfate-reducing bacteria in oilfield water injection systems and water transmission and gathering systems, use TEKTAMER 38 O.F. as directed. Best results are obtained when slug fed. Frequency of addition of a microbiocide depends on many factors. Follow this procedure to optimize your use of TEKTAMER 38 O.F.

Add TEKTAMER 38 O.F. as close to the water source as possible with a Calgon (or equivalent) metering pump at a point in the system prior to free-water knockouts, storage tanks or filters for maximum system residence time.

Slug feed 100 to 500 ppm TEKTAMER 38 O.F. (35 to 174 pounds TEKTAMER 38 O.F. per 1,000 barrels of water to be treated). Slug additions should be for a minimum of four hours each day, more frequently if needed to obtain desired results.

For Drilling Fluids

Add 250 to 500 ppm TEKTAMER 38 O.F. (8.7 to 17.4 pounds or 5.2 to 10.3 mud cups per 100 barrels of drilling fluid) directly to the mud or the drilling fluid for start-up treatment.

Add TEKTAMER 38. 0.F. to the chemical barrel and add treatment over one circulation period.

Maintain TEKTAMER 38 O.F. residual during drilling operation by adding 300 to 600 ppm TEKTAMER 38 O.F. (10.5 to 21 pounds or 6.25 to 12.5 mud cups per 100 barrels of new fluid) to new make-up fluid each tour.

Add TEKTAMER 38 O.F. maintenance treatment to the chemical barrel once each hour whenever new make-up fluid is added.

COMPATIBILITY

TEKTAMER 38 O.F. is compatible with typical ingredients in end-use applications. However, it should be added separately from amine-containing and strong nucleophylic agents if these ingredients are used in the same application. Mixing TEKTAMER 38 O.F. with these agents may cause reaction between the ingredients which can de-activate TEKTAMER 38 O.F.

TEKTAMER 38 O.F. is most active over a pH range of 2-9.5. In some formulations, product has shown efficacy in higher pH formulations. If the formulation will have a final pH greater than 9.5, laboratory testing is recommended.

CORROSION PROPERTIES

TEKTAMER 38 O.F. is compatible with materials such as PVC, polyethylene, polypropylene, Tygon, Teflon and glass. The product is corrosive to carbon steel.

PACKAGING

TEKTAMER 38 O.F. is available in 22 pound net and 110 pound net fiber:

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS DANGER: CORROSIVE

Causes eye damage and skin irritation. Harmful or fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENTS OF PRACTICAL TREATMENT

EYES:

In case of contact, flush eyes immediately with water for at

least 15 minutes and get medical attention.

SKIN:

In case of contact, wash with soap and water. If irritation persists, call a physician. Wash contaminated clothing before

INTERNAL: If swallowed, induce vomiting by administering ipecac syrup or by sticking finger down throat. Repeat until vomit is clear.

Call a physican. Never give anything by mouth to an

unconscious person.

ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Drums of TEKTAMER 38 O.F. should be stored out of direct sunlight to maintain the product below its melting point. If product is exposed to sustained temperatures above 50°C, caking will occur with associated handling problems. Product efficacy will not be affected. However, dissolution time will increase.

Container should be kept tightly closed.

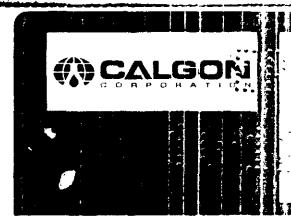

Completely empty drum liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner. Do not contaminate water, food or feed by storage or disposal. Waste resulting from the use of this product may be disposed on on site or at an approved waste disposal facility.

NOTICE

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instruction.

Information concerning human and environmental exposure may be reviewed on the Material Safety Data Sheet and label for this product.

For additional information regarding incidents involving human and environmental exposure, call (412) 494-8000 and ask for the Health and Environmental Affairs Department.

TEKTAMER® 3

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER - CORROSIVE

CAUSES EYE DAMAGE AND SKIN IRRITATION. HARMFUL OR FATAL IF SWALLOWED.

DO NOT GET IN EYES, ON SKIN, OR ON CLOTHING.
WEAR GOGGLES OR FACE SHIELD AND RUBBER GLOVES WHEN HANDLING.
WASH THOROUGHLY AFTER HANDLING.

WASH THOROUGHLY WITH SOAP AND WATER AFTER HANDLING. REMOVE CONTANINATED CLOTHING AND WASH BEFORE REUSE.

FIRST AID:

EYE: IN CASE OF CONTACT, FLUSH EYES INHEDIATELY WITH WATER FOR AT LEAST 15 MINUTES AND GET MEDICAL ATTENTION.

SKIN: IN CASE OF CONTACT, WASH WITH SOAP AND WATER. IF IRRITATION PERSISTS, CALL A PHYSICIAN. WASH CONTAMINATED CLOTHING BEFORE REUSE.

INTERNAL - IF SWALLOWED, INDUCE WOMITING BY ADMINISTERING IPECAC SYRUP OR BY STICKING FINGER DOWN THROAT. REPEAT UNTIL WOMIT IS CLEAR. NEVER GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON. CALL A PHYSICIAN.

NOTICE

SELLER MAKES NO HARRANTY, EXPRESSED OR IMPLIED, CONCERNING.
THE USE OF THIS PRODUCT OTHER THAN INDICATED ON THE LABEL
BUYER ASSUMES ALL RISK OF USE AND/OR HANDLING OF THIS MATERIAL
WHEN SUCH USE AND/OR HANDLING IS CONTRARY TO LABEL INSTRUCTION.
