

Precautionary Statements

Hazards to Humans and Domestic Animals

CORROSIVE

Causes Eye Damage and Skin Irritation

Harmful if Swallowed

Do not get in eyes, on skin or on clothing.

Wear goggles or face shield and rubber gloves when handling.

Wash thoroughly after handling.

FIRST AID:

EYE: In case of contact, flush eyes immediately with water for at least 15 minutes and get medical attention.

SKIN: In case of contact, wash with soap and water. If irritation persists, call a physician. Wash contaminated clothing before reuse.

INTERNAL: If swallowed, call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger or, if available by administering syrup of ipecac. Do not induce vomiting or give anything by mouth to an unconscious person.

Environmental Hazards:

Do not discharge into lakes, streams, or public waters unless in accordance with an NPDES permit. For guidance, contact your Regional Office of the EPA.

Storage and Disposal:

Keep container closed when not in use. Do not reuse empty container. Reseal and offer for reconditioning or dispose of in an approved landfill.

NOTICE: Seller expressly warrants that the product conforms to its chemical description. There are no warranties associated with the sale of this product either express or implied, including but not limited to the warranties of fitness for a particular purpose or merchantability.

U.S. Patent No.: 3,833,731, 3,873,597, 3,877,922, 3,929,858

Made in U.S.A.

TEKTAMER 38

O.L.

Water Treatment Microbiocide for Oilfield
Subsurface Water Injection Systems
And Well Drilling Fluids

Active Ingredient

1,2-Dibromo-2,4-Dicyanobutane 10%

Inert Ingredient 90%

KEEP OUT OF THE REACH OF CHILDREN

DANGER!

E.P.A. Registration No. 10445-

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
and related laws, the pesticide
registered under EPA Reg. No.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For Injection Systems

To control sulfate-reducing bacteria in oilfield water injection systems and water transmission and gathering systems, use Tektamer 38 O.L. as directed. Best results are obtained when slug fed. Frequency of addition of a microbiocide depends on many factors. Follow this procedure to optimize your use of Tektamer 38 O.L.

Add Tektamer 38 O.L. as close to the water source as possible with a Calgon (or equivalent) metering pump at a point in the system prior to free water knockouts, storage tanks, or filters for maximum system residence time.

Slug feed 100 to 500 ppm Tektamer 38 O.L. (350 to 1740 pounds Tektamer 38 O.L. per 1,000 barrels of water to be treated). Slug additions should be for a minimum of four hours each day, more frequently if needed to obtain desired results.

For Drilling Fluids

Add 250 to 500 ppm Tektamer 38 O.L. (87 to 174 pounds or 52 to 103 mud cups per 100 barrels of drilling fluid) directly to the mud or the drilling fluid for start-up treatment.

Add Tektamer 38 O.L. to the chemical barrel and add treatment over one circulation period.

Maintain Tektamer 38 O.L. residual during drilling operation by adding 300 to 600 ppm Tektamer 38 O.L. (105 to 210 pounds or 62.5 to 125 mud cups per 100 barrels of new fluid) to new make-up fluid each tour.

Add Tektamer 38 O.L. maintenance treatment to the chemical barrel once each tour whenever new make-up fluid is added.

BEST DOCUMENT AVAILABLE

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

ATTACHMENT TO EPA REGISTRATION NOTICE

EPA Registration No. 10445-71 Date Issued May 10, 1984
Company Name Calgon Corporation
Product Name Tektamer 38 O.L.

The following requirements or revisions apply to the label which was accepted with this registration notice:

1. The registration number which has been assigned to this product must appear on the label as EPA Registration No. 10445-71.
2. Refer to the enclosed "Status of Disclaimer Statements on Pesticide Labeling" dated November 16, 1966, and revise the proposed disclaimer statement accordingly. The revised statement submitted with your application of March 23, 1984, for Tektamer 38, EPA Registration No. 10445-33, and Tektamer 38 A.D., EPA Registration No. 10445-56, is acceptable in this regard.
3. Revise "Causes Eye Damage and Skin Irritation" to "Causes Eye and Skin Damage."

The label which will be used for this product in channels of trade must reflect these revisions.

Five copies of the finished labels, as defined in the A-79 enclosure, must be submitted to the Agency before the product is released for shipment to comply with PR Notice 82-2 of June 18, 1982.

The finished printed labels must comply with the general labeling requirements of Section 162.10 of Title 40 of the Code of Federal Regulations. Failure to do so may result in rejection of the labels.
