STORAGE AND DISPOSAL

Keep container closed when not in use. Do not contaminate water, food, or feeds by storage or disposal.

Ship and store BIOCHECK 430 at temperatures between 0°-42°C (32°F to 108°F) Freezing the product may cause a temporary water separation which can be corrected by mechanical agitation.

Store away from heat. At temperatures above 42°C (106°F), the active ingredients in the dispersion may separate out

ATTENTION: If the temperature indicator button is white. the product can be used directly.

If the indicator button is bright blue, matching the exposed example, sample the drum. If the product is a slightly viscous, white dispersion, the product may be used. If two phases are found or clear viscous water is found, contact your product representative.

Temperature changes may alter viscosity, but will not effect product handling or performance

DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

DISPOSAL OF DRUMS: Do not reuse empty container. Triple rinse (or equivalent). Reseal container then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, by incineration or, if allowed by State and local authorities, by burning if burned, stay out of smoke
