c. Add the following heading immediately below the heading "Precautionary Statements":

Hazard to Humans and Domestic Animals Keep Out Of Reach of Children CAUTION

d. Revise your "Statement of Practical Treatment" section to read:

If Swallowed: Do not induce vomiting. Drink large quntities of water. Never give anything by mouth to an unconscious or convulsing person.

If In Eyes: Flood eyes with water for at least 15 minutes.

If On Skin: Wash thoroughly with soap and water.

e. Include the following statment on your product labeling:

Limit residues of Poly (N,N-dimethyl diallyl ammonium chloride) in the finished potable water to no more than 50 ppm."

f. Revise your Envvironmental Hazards statement to read:

Environmental Hazards

pesticide is toxic to fish This and aquatic invertebrates. Do not use in facilities discharging directly or indirectly to estuarine or marine Do not discharge into lakes, streams, environments. ponds or public waters unless in accordance with the National Pollution Discharge requirements of a Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

4. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Under the restoration insecticide, -Fungicide, and Rodenticide Act as amended, for the posticide regardered under EPA Reg. No. 10445-116

LABEL (Cont.)

Environmental Hazards

This product is toxic to fish. Do not discharge into lakes, streams, ponds, estuaries, oceans, public waters or sewer systems.

Storage and Disposal

Prohibitions - Do not contaminate water, food, or feed by storage or disposal. Keep container closed when not in use.

Pesticide Disposal - Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA regional office for guidance.

Container Disposal - Plastic Containers--Triple rinse (or equivalent). Then-offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerator, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Directions for Use

)

Cat-Floc L-M should be added to the system at a rate of 0. If luid ounces to 6. If luid ounces of Cat-Floc L-M per 1,000 gallons of intake water. Additions should occur at a point sufficiently inside the intake pipe to prevent any release of Cat-Floc L-M into the intake source (5 to 10 feed for normal flow operations). Addition should be made through a supply line placed inside the intake pipe or in some locations as to ensure that no contamination of public water occurs in the event of a break. Feed exits must be equipped with a pressure check valve at the feed line exit to seal the feed line when intake flow stops. Feed pumps must be designed to shut down when intake pumps stop. Planned shut downs shall require feed pumps to be stopped 1/2 hour prior to shut down.
