FOR COMMERCIAL USE

ACTIVE INGREDIENTS	INE/T INGREDIENTS 80%
Pyrethrins .25%	Dichloro-Difluoro-Methane (Fron 12)
Technical Permethrin Butoxide* .50%	Trichloro-Monofluoro-Methane (Fron 11)
N-octyl Bicycloheptene Dicarboximide .50%	*Equivalent to 0.4% (Butylcarbitol, Propylpiperonyl Ether and other related compounds.
Petroleum Distillate 18.75%	

DIRECTIONS FOR USE

1. Remove protective cover. Holding dispenser upright, point valve in desired direction and press dispenser button to spray.
2. Close room, leave closed and unoccupied for 15-30 minutes after spraying.
3. Cover exposed food before spraying. Avoid excessive spraying toward light walls. Do not spray plastic or asphalt tile direct.
4. Bomb will operate about six minutes. Count one second, two seconds, etc., to prevent waste. Do not turn upside down.

MISQUITOES, FLIES, GNATS Spray with upward motion of arm 4 to 6 seconds per 1000 cu. ft. (10' x 10' x 10') walking around room to spread mist.

ROACHES, WATER BUGS, SILVERFISH Direct spray at cracks and crevices, open drawers and cabinets and move contents to reach insects with mist. Spray under side of sinks, bath tubs, drains and in damp places, concentrate spray around their hiding places. Repeat applications as necessary. Follow directions. Excessive spraying is wasteful.

CAUTION

Do not spray on skin or on animals. In case of skin contact, wash with soap and water. Avoid contamination of feed and foodstuffs. Remove birds, fish bowls and pets from room being sprayed. Avoid prolonged inhalation. Do not use or store near heat or open flame. Temperature above 120° F May cause bursting. Never throw container into fire or incinerator.
