

HI SPEC #311

WATER BASE INSECTICIDE

ACTIVE INGREDIENTS

Pyrethrins.....	.10%
**Piperonyl butoxide, technical.....	.20%
N-octyl bicycloheptene dicarboximide.....	.33%
Petroleum distillate.....	.46%
INERT INGREDIENTS.....	93.89%

**Consists of 0.16% (butylcarbityl) (6-propylpiperonyl) ether and 0.04% related compounds.

DIRECTIONS FOR USE

SPACE SPRAY TO KILL FLIES, MOSQUITOES, GNATS AND FLYING MOTHS in homes, institutions, food processing plants and industry: Shake container gently to be sure contents are uniformly mixed. Close doors and windows and turn off ventilating equipment. Mist all parts of the room or area at a dosage of one fluid ounce of this product per 1000 cubic feet of space.

TO KILL GRAIN BEEVILS, GRAIN MOTHS, GRAIN MITES, CADELLERS OR FLOUR BEETLES AND EXPOSED FORMS OF CRAWLING GRAIN PESTS in grain processing and grain storage areas. Apply as a coarse spray to all infested surfaces, insect hiding places and insect runways at the rate of one gallon of this product on 750 square feet of area.

CAUTION: Do not spray stored grain or grain surfaces.

FOR CONTACT SPRAY TO KILL COACHES, WATERBUGS AND CRICKETS in homes, institutions, food processing and industrial plants: Shake container gently. Apply as a coarse spray to all cracks and crevices in woodwork, beneath sinks, dark places behind pipes and in all places where these insects rest, contacting as many insects as possible with the spray, repeat application as often as necessary to gain control.

CAUTION: Cover or remove all food and food processing equipment during application and clean the equipment thoroughly before using. Remove birds and fishbowls from the room being sprayed. Keep containers closed.

CAUTION: KEEP OUT OF REACH OF CHILDREN
