Subject: Amended Reregistration Label
Product Name: CSI Arsenic Acid 75%
EPA Registration Number: 10465-32
Decision Number: 454447

Dear Mr. Archer:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the Chromated Copper Arsenate (CCA) RED, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

NOTE: This product is **not** yet being reregistered under section 4(g) of FIFRA.

Please note that the record for this product currently contains the Confidential Statement of Formulation (CSF) listed below. Any previously dated CSF are superseded.

- Basic CSF, dated 10/02/2013

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

A copy of your label stamped "Accepted" is enclosed. Products shipped after 12 months from the date of this amendment or the next printing of the label, whichever occurs first, must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions about this letter, please contact Tom Luminello by phone at 703-308-8075, or via email at luminello.tom@epa.gov.

Sincerely,

Jacqueline Hardy, Product Manager (34)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

DANGER

Corrosive. Causes irreversible eye damage and skin burns. Fatal if swallowed, inhaled, or absorbed through the skin. Do not get in eyes, on skin, or clothing. Do not breathe dust or spray mist.

Wear goggles or face-shield, coveralls or long-sleeved shirt and long pants; socks and chemical resistant foot wear; and chemical resistant gloves in all situations where dermal contact is expected. Wear properly fitting, well maintained high efficiency filter respirators, MSHA/NIOSH approved for inorganic arsenic. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse. Vapors may cause injury if adequate ventilation is not ensured. Use only with adequate engineering controls and ventilation where dust, mist and hazardous by-product may be generated.

Self contained breathing apparatus must be worn when fighting fire involving this product.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Arsenic can react with several metals, including galvanized metals and black iron. Do not use galvanized metal containers for this product since highly toxic arsine gas may be formed. Arsenic acid can be corrosive. Flush all equipment that comes in contact with arsenic acid with water immediately after use. Never use pressure to empty containers other than pressure cylinder.

RESTRICTED USE PESTICIDE

DUE TO ACUTE TOXICITY AND BECAUSE THIS PRODUCT CONTAINS ARSENIC, SOME TYPES OF WHICH HAVE BEEN ASSOCIATED WITH TUMOR DEVELOPMENT IN HUMANS (For the manufacture of wood treating products)

**CSI ARSENIC ACID 75%
FOR MANUFACTURING USE ONLY**

ACTIVE INGREDIENTS	
Arsenic Acid (H ₃ AsO ₄)	75.0%
OTHER INGREDIENTS	
	25.0%
<hr/>	
TOTAL	100.0%

*Total arsenic, expressed as metallic, all in water soluble form - 39.6%.
15.7 lbs. per gallon.*

KEEP OUT OF REACH OF CHILDREN

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing the eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for further treatment advice.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

Refer to additional precautionary statements elsewhere on the label under the heading, "Precautionary Statements: Hazards to Humans and Domestic Animals".

Have the product container or label with you when calling a poison control center or doctor, or when going for treatment.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Only for formulation as a preservative for the following uses: (1) end-use wood preservative ammoniacal copper zinc arsenate (ACZA) or (2) for end-use chromated copper arsenate (CCA) wood preservative.

This product may be used to formulate products for additional use(s) not listed on the MUP label if the formulator, user group or grower has complied with U.S. EPA submission requirements regarding support of such use(s).

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE

This product must be stored in tightly sealed, unlined metal containers (other than stainless steel) because of the possibility of hydrogen liberation and the development of excessive pressure.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If this waste cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING

Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

SPILLS

Recover spilled liquid or neutralize with 10 lbs. lime per gallon of liquid. Sweep up or vacuum area thoroughly to remove any remaining contaminated lime or soil. Consult federal, state or local disposal authorities for approved disposal procedures.
