Olivia D. Laird Laird's Regulatory Consultants, Inc. Agent for: Thompson Research Associates, Inc.

OCT 0 2 **2014**

SUBJECT:

Ultra-Fresh DW-56 EPA Registration Number: 10466-46 Application Dated: September 23, 2014 Receipt Date: September 30, 2014

Dear Ms. Laird:

This letter acknowledges receipt of the amendment identified above submitted under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

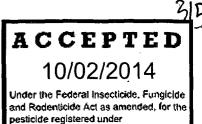

After review, the revisions to the label to clarify that this product is for use only in the manufacture of non-food use products have been found acceptable. Should you have any questions concerning this letter, please contact me at (703) 347-8028.

Sincerely,

Mideloff

Eric Miederhoff Acting Product Manager 33 Regulatory Management Branch I Antimicrobials Division (7510P) Office of Pesticide Programs Date: October 2, 2014

Technical Data Sheet Ultra-Fresh DW-56 Biostat

Ultra-Fresh DW-56 is a suspension, ranging in colour from off-white to tan, designed to control the growth of fungi, bacteria and algae in water-based coatings,

Ultra-Fresh DW-56 will control the growth of microorganisms on textiles. The following examples of products (substrates) suitable for finishing with this product: Textiles such as: Wearing apparel – for example work-wear, uniforms, sportswear, slacks, shirts, underwear, sweatshirts, sweatpants, socks, oven mitts, slippers, bathrobes, gloves, hats, scarves, jackets, incontinence pad cover stock, washable incontinence briefs and panties.

Household products, for example, upholstery, polyurethane foams for furniture, curtains, wall coverings, mops, yarns, cords, non-food contact toweling and blankets, sheets, pillowcases. Synthetic fiber wipes, tissues, foams and sponges (non-food contact). Automotive, boat, train and airplane seats and seat coverings.

Outdoor textile applications include cotton and cotton/poly blend ducking for use in canvas and awnings.

Ultra-Fresh DW-56 can be used to treat filter media, polyester fiber for use in tow and cut, for pet and animal bedding, synthetic brooms, mops, non-food contact cleaning implements, mop yarns, air filter media, wall and window coverings and dust towels.

Applications in water-based emulsions for non-food contact applications including adhesives, grout, mortar, mastics, latex and latex coatings.

DIRECTIONS FOR USE

The application levels given below are representative of those found to be successful in practical applications. For each specific use, one or more trial runs are recommended in order to determine the optimum application method and level of addition for substrate being treated.

1. Aqueous coatings on limited textiles

Polyurethane, acrylic, PVC and latex coatings and compounds may be rendered resistant to the growth of microorganisms by the incorporation of Ultra-Fresh DW-56. Ultra-Fresh DW-56 can be added directly to the liquid system prior to the drying/heating/crosslinking/curing stage at dosage levels of 0.2% to 0.7% on the final weight of the coating. For some applications, minor formulation adjustments may be required to control physical properties.

2. Aqueous Polymer Systems and Coatings

20 February 2014

Ultra-Fresh DW-56 may be utilised in a wide range of water-based polymers, adhesives and resin coating systems for non-food contact applications. Add Ultra-Fresh DW-56 directly to the polymer system such that the dosage is in the range of 0.2 - 0.4% on the total weight of the finished goods. Its unique formulation will impart strong antimicrobial properties to a wide range of outdoor applications, construction, specialist and industrial coatings.

This list is only intended to give examples of the types of usages that the Ultra-Fresh products have been shown to be effective. Ultra-Fresh products are only intended to confer antimicrobial protection to treated articles, not to protect the people who are using them. Contact your local distributor to confirm that the usage type desired is acceptable according to Federal and local government regulations.

PHYSICAL PROPERTIES

Colour & Appearance:	Opaque off-white to brown liquid
Specific Gravity:	1.05 – 1.20
pH:	6.9 – 7.9

HANDLING PRECAUTIONS

Ultra-Fresh DW-56 should be handled with care and common sense that is accorded to all biologically active chemicals. In case of contact with skin, remove and launder contaminated clothing before reuse. Consult Material Safety Data Sheet for more information.

SPILL CLEAN-UP PROCEDURES

For small spills, absorb with sand, clay or other inert absorbent and place in clean, dry container for disposal. Large spills should be diked to prevent spreading. Pump spilled material to containers for salvage or disposal. Absorb the residual material as for small spills. Clean the spill area with detergent and water. This product is toxic to fish. Keep discharge from entering sewers, lakes, streams, ponds, estuaries or public water sources. Dispose of in accordance to regulations.

WASTE DISPOSAL PROCEDURES

Dispose of in accordance to regulations.

TOXICOLOGICAL INFORMATION

Corrosiveness To Skin (Test Species): Not IrritatingCorrosiveness to Eyes (Test Species): Severely IrritatingThis Product Is: Not sensitizingAcute Oral LD50 (mg/kg): >2000Species: Rat

FIRST AID

In Case of Eye Contact: Immediately flush eyes with copious amounts of water for at least 15 minutes while holding eyelids wide apart. Seek medical attention.

In Case of Skin Contact: Remove contaminated clothing immediately. Wash affected area with mild soap and water. If irritation persists seek medical attention. Wash contaminated clothing and equipment before reuse.

In Case of Inhalation: Move subject to fresh air. If discomfort persists seek medical attention.

In Case of Ingestion: If conscious have subject drink one glass of water. Never give anything to an unconscious or convulsing person. Do NOT induce vomiting. Seek immediate medical attention.

Note To Physician: Treat according to symptoms, no known specific antidote.
