FUNGICIDE AND RODENTICIDE ACT  
FOR ECONOMIC POISON REGISTRATION  
ED UNDER NO. 10474-1

## FORMULA 19 ROACH KILLER

FORMULA 19 ROACH KILLER is a unique combination of silica gel insecticide dust with other components. An amazingly fast acting dust that kills running and crawling insects after contact. It may be used anywhere in the home, factory, or other site without damaging materials of any kind.

### DIRECTIONS FOR USE:

For the control of ANTS, ROACHES, and SILVERFISH, distribute FORMULA 19 ROACH KILLER at the rate of 2 ounces per 100 square feet of surface area in visible concentration beneath, and behind stoves, sinks, and refrigerators. Apply a continuous visible film on or behind all molding, shelving, base boards, and pipe openings, as well as in cracks and crevices where insects may hide. In cases of severe infestation apply FORMULA 19 ROACH KILLER in cabinets, crawl spaces, attics and behind walls at the rate of 16 ounces per 1000 square feet of surface area. For the control of Bed Bugs, dust infected area, including bedstead, springs, mattress and hiding places.

For the control of FLEAS, LICE and TICKS on dogs apply the powder liberally onto the animal. Begin with the neck region and include the back, legs, feet, and the underbody.
