JAN 3 1979

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 10551-1

IMPORTANT CAUTION

BE SURE HOLE IS LARGE ENOUGH TO DROP BURNING TUBE IN. DO NOT FORCE TUBE INTO HOLE AS IT COULD BACKFIRE! AFTER LIGHTING FUSE, HOLD TUBE ALMOST UPRIGHT AWAY FROM YOUR PERSON UNTIL TUBE IS BURNING! DO NOT PUT TUBE IN HOLE OR TUNNEL UNTIL TUBE IS BURNING!! STORE IN COOL DRY PLACE FOR STORAGE.

[Insert in Blister Pack]

THE GIANT DESTROYER

"The Effective Gas Killer"

QUICKLY KILLS Rats, Moles, Gophers, Skunks, and Ground Squirrels in their holes, tunnels and burrows.

DIRECTIONS: Insert tube in hole at end of cartridge. Light and place lighted end into hole, tunnel, or burrow. COVER ALL openings from which gas escapes. Insert ADDITIONAL tubes in other holes which may exist.

ACTIVE INGREDIENTS: Sodium Nitrate, 48.2%, Sulphur, 34.8%, Charcoal, 8.7%, INERT INGREDIENTS, 10.3%.

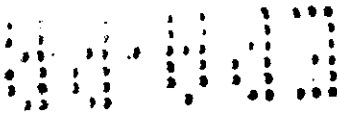

CONTAINS FORMULA "S"

CAUTION: KEEP OUT OF REACH OF CHILDREN. Avoid prolonged breathing of gas. Tubes are combustible but not explosive. Releases toxic gas when burning. Do not use around combustible materials, in buildings or in burrows leading into buildings. On state protected wildlife - Consult state game & fish agencies before applying this product.
