### DIRECTIONS FOR USE

For rapid control of roaches, ants, spiders, crickets, silverfish pedes, cheese mites, meal worms, grain beetles (confused flour beetle, red flour beetles) and weevils (granary weevils, rice weevils). Use good sprayer adjusted to deliver a coarse wet spray, at a rate of 1/2 to 750 square feet of surface. Direct spray into locations where insects are found; garbage compactors, garbage chutes and cans, cracks and crevices, dark corners, behind and beneath sinks, stoves, refrigerators, and cabinets, along baseboards, and around doors and window frames. Spray ant trails, nests and points of entry. Kill insects directly wherever possible.

In case of infested foods in cabinets, dispose of the infested material. Remove all contents and clean thoroughly. Spray interior surfaces of empty cabinets thoroughly. After spray has dried, cover shelves with paper or otherwise protect foods from direct contact with sprayed surfaces.

Repeat treatment if reinfestation occurs.

**ACCEPTED**  
FEB 13 1974  
UNDER THE FEDERAL INSECTICIDE FUNGICIDE AND RODENTICIDE ACT FOR ECONOMIC POISON REGISTERED UNDER NO. 10573-21 SUBJECT TO ATTACHED COMMENTS.
