# PRECAUTIONARY STATEMENTS CAUTION

### Hazards to Humans and Domestic Animals

Harmful if swallowed. Avoid contact with skin, eyes, and clothing. Avoid breathing dust.

## Statement of Practical Treatment

IF SWALLOWED: Drink one or two glasses of water and induce vomiting by touching back of throat with finger.

IF INHALED: Get plenty of fresh air. Call a Physician if effects persist.

IF ON SKIN: Flush skin with plenty of water. Wash contaminated clothing before reuse.

IF IN EYES: Flush eyes with plenty of water for at least 15 minutes. Call a Physician.

# **Environmental Hazards**

Keep out of lakes, streams or ponds as this product is toxic to fish and wildlife. Do not contaminate water used for irrigation or domestic purposes.

## STORAGE AND DISPOSAL

STORAGE: Do not store near food products, fertilizers, seeds or insecticides.

PRODUCT DISPOSAL: Securely wrap container in several layers of paper and discard in trash.

CONTAINER DISPOSAL: Do not reuse container. Discard in trash.

#### WARRANTY

The General Control Company, Inc. warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed thereon.

#### DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PLEASE READ DIRECTIONS COMPLETELY BEFORE USING

DO NOT USE IN ANNUALS OR NEWLY ESTABLISHED PLANTINGS

#### BERMUDAGRASS CONTROL

WHERE TO APPLY: Apply anywhere — in tree wells, driveways, sidewalks, in and around bushes and shrubs and right in broadleaf ground cover — wherever unwanted bermuda exists. This herbicide will attack and destroy the root structure of Bermudagrass but will not harm desired plants. When destroying Bermuda patches in grass lawns such as St. Augustine or Kentucky Blue, this material will destroy the immediately adjacent lawn also and treated spots will remain bare for one growing season. However replanting may be done the following year.

HOW TO APPLY: Use gloves when handling. Uniformly sprinkle contents of one packet throughout an area of 50 sq. (t. (5' x 10'). Do not overtreat. If possible, scratch into the soil with light raking. Water into soil with hand sprinkling. Do not allow water to run or puddle, especially around the trunks of ornamentals. Apply directly to soil. Remove redwood chips, etc., if present, before application. Destroy any surface growth by spraying CONTROL RAPID KILL #1. In areas where the grass is intermingled with ground cover and contact killing is impossible, hand-pull the grass that extends above the

(Continued on right panel)

# ACCEPTED

MAR 18 1988

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 158.3-16

Active Ingredient:
2. 6 dichlorobenzonitrile...
Inert ingredient

. 4.0% 96.0%

# KEEP OUT OF REACH OF CHILDREN CAUTION

See Back Panel for Additional Precautionary Statements.

EPA Est. No 10583-AZ-1 Net Contents: 16 ounces (in 4 packets)

#### (Continued from left panel)

plantings. Lack of direct sunlight on the grass will greatly help in establishing control

WHEN TO APPLY: A control program can be started anytime during the growing season. Usually two or three treatments approximately six weeks apart will give good control.

TYPE OF CONTROL: In areas where the Bermuda is intermingled with ground cover, BERMUDAGRASS ROOT KILLER will stunt the grass, prevent its growth and gradually turn it brown while not damaging the broadleaf ground cover. In other areas use CONTROL RAPID KILL #1 to brown out surface growth wherever possible, and good control will be quickly established. The combined effect of destroying the surface growth as well as the roots will eradicate this pest.

#### **NUT GRASS CONTROL**

WHERE TO APPLY: Apply in all areas where Nut Grass appears except in desired grass lawn areas. Follow directions as shown for Bermudagrass Control.

COVERAGE: Approximately 200 sq. ft. Contents of each bag will cover 50 square feet.
