NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. The signal word "DANGER" should be placed immediately below "Keep Out of Reach of Children" heading.
2. The precautionary statements indicated to the left on the front panel should be moved to the side panel under "Hazards to Humans and Domestic Animals".
3. Revise the ingestion statement to read: "If swallowed, drink large amounts of water. Do not induce vomiting. Call a physician or poison control center immediately".

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

DATE

2074

4. The headings Active Ingredients and Inert Ingredients should be aligned to the same margin. See below.

Active Ingredient:

Calcium Hypochlorite ... 70%
Inert Ingredients 30%

5. The heading "First Aid" should be changed to read: "Statement of Practical Treatment (First Aid)".
6. Revise the "Environmental Hazards" statement to read:

"This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Following the sentence, "This pesticide is toxic to fish and aquatic organisms," you may instead use the text indicated in PR Notice 93-10 (copy enclosed), since that text will be required as indicated in that Notice.

A stamped copy of the product label is enclosed for your records. Submit one copy of the final printed label before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

1. CHECK RESIDUAL CHLORINE with a Pool Doctor Test Kit. If below 1.0 ppm, add 10 ounces Pool Doctor Dry Chlor per 10,000 gallons. Repeat this dosage until a chlorine residual of 1.0-1.5 ppm has been established. Add

Dry Chlor to water by broadcasting over pool surface, avoiding the deeper end and in the vicinity of the main drain. Add the product to the pool in the morning and evening. Do not add to the pool during the day. Do not add to the pool if the water is cloudy or if the pool is being treated with a shock treatment.

2. MAINTAIN RESIDUAL CHLORINE at 1.0-1.5 ppm. Add 10 ounces Pool Doctor Dry Chlor per 10,000 gallons of water. Add 5 ounces Pool Doctor Dry Chlor per 5,000 gallons of water. Add 1 ounce Pool Doctor Dry Chlor per 1,000 gallons of water. Higher dosages may be required during exceptional heat or weather conditions. For more information, see Pool Doctor Dry Chlor label.

3. SUPERCHLORINATION is necessary after a heavy bathing load, or approximately every 7-14 days when water temperature is 75° - 95°F. Superchlorinate by adding 5 oz. product per 5,000 gallons of water.

4. MEASURE pH at least once each week with a Pool Doctor Test Kit. Adjust pH to 7.2-7.8 if necessary by adding Pool Doctor Liquid Acid* or Pool Doctor Dry Acid* to reduce pH. Add Pool Doctor Soda Ash* to increase pH. *Follow Directions for Use on labels of these products.

NOTE: This product is sold by weight. Settling of product may occur during storage and handling will occur.

PRECAUTIONARY STATEMENTS

Hazard to Human and Domestic Animals

NOTE TO PHYSICIAN

Probable cause of death was the combination of the insecticide and the organophosphate. Measures against chlamydia, yersinia, and other organisms in support of the health of the mechanically treated birds should be considered in possible conditions.

may be exposed by the contact of the birds with the insecticide and the organophosphate.

**ENVIRONMENTAL HAZARDS
ENVIRONMENTAL PRECAUTIONS**

This pesticide is highly toxic to aquatic organisms and should not be applied to water bodies. Do not apply to water bodies.

**STORAGE AND DISPOSAL
DO NOT FEED TO WATER, FOOD OR FEED BY STORAGE AND DISPOSAL**

STORAGE: Store in a dry place no lower in temperature than 50°F or higher than 120°F.

CONTAINER DISPOSAL — Do not reuse empty container.

Triple rinse empty container with water. Return metal drum then offer for reconditioning or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Plastic containers may be disposed of in a sanitary landfill, or by other procedures approved by local authorities, by burning. If burned, stay out of smoke.

PESTICIDE DISPOSAL — Pesticide is extremely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Region Office.

World Industries Inc. warrants that this product is reasonably fit for intended use and that it contains the ingredients in the amount stated on the label. Since use conditions are beyond the control of World Industries Inc., we do not warrant the replacement of the product.
