

US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (TS-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.
10600-8

TERM OF ISSUANCE

SEP 05 1986

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT
EX-A (10)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

SOIPI Laboratories
6901 Industrial Loop
Greendale, WI 53129

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 10600-8" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

KEEP OUT OF REACH OF CHILDREN
DANGER

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes eye and skin damage. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician. Never induce vomiting or give anything by mouth to an unconscious person.

Warn to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

EX-A (10)

recirculating cooling tower systems and microbiological slime. Prior to the use of EX-A (10) on industrial and/or commercial recirculating cooling tower systems, clean to remove algal growth, microbiological slime, and other debris. Initial slug addition of 3.3 to 4.9 fl. oz. per 1000 gal. of water to provide 30 to EX-A (10), based on total weight of sludge until control is evident. Make subsequent slugs

EX-A (10) ppm EX-A (10) of addition depends upon the relative amount of microbiological problem. Slug additions should be made on recirculating tower systems.

EX-A (10) which maintain effective mist-eliminating conditions. Clean to remove bacterial slime and other debris. 9.8 fl. oz. of EX-A (10) is recommended. Repeat initial dosage until control is achieved. 5.7 to 9.8 fl. oz. of EX-A (10) per 1000 gallons of water should be employed every 10 days. Slug additions should be made to the sump system. Slug additions may be made to the sump system.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not expose to extreme temperatures. Do not store in drums should be placed in overpack drums for disposal. Spill should be placed in a sanitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. If a spill, mixture, or rinseate is a violation of Federal Law. If these wastes are not disposed in accordance with the instructions, contact your State Pesticide or Environmental Control Agency or your EPA Regional Office for guidance.

CONTAINER DISPOSAL:

PLASTIC: Triple rinse (or equivalent). Then offer for recycling or incineration, by incineration, or, if allowed by state or local authorities, by other procedures approved by state or local authorities.

METAL: Triple rinse (or equivalent). Then offer for recycling or incineration, by incineration, or, if allowed by state or local authorities, by other procedures approved by state or local authorities.
