STORE IN COOL DRY PLACE - KEEP CONTAINER CLOSED

Alpha San 200 is an organic chlorine agent for sanitizing dairy, food and beverage equipment. To obtain proper use dilution strengths, do not store Alpha San 200 over 12 months from date of manufacture.

ALPHA SAN 200

DIRECTIONS FOR USE

Note

All equipment should be cleaned and rinsed, prior to using Alpha San 200 as a sanitizer. Use 100 ppm solution where facilities are available to test periodically to determine that the concentration in use does not fall below 50 ppm. Otherwise, use a starting solution of 200 ppm. Whenever concentrations above 100 PPM available chlorine are used, rinse all food contact surfaces and equipment with potable water before reuse.

Active Ingredient	
Sodium Salt of dichloro s triazinetriene	20.5%
(Provides 16% Minimum Available Chlorine)	
Inert Ingredients	73.5%
Total	100.0%
Net Contents: 25 lbs	EPA Reg. No. 106-34-3

MANUFACTURED BY
ALPHA CHEMICAL SERVICES, INC. - STOUGHTON, MASS.

DANGER

Harmful if swallowed. May cause burns or damage to the eyes. If contact with eyes occurs flush with plenty of water for 15 minutes and get medical attention. If contact with skin occurs flush with water. Do not mix with acid detergents. Avoid contamination of food.

Keep from contact with clothing and other combustible materials. Do not store near combustible materials. Contact with organic matter such as clothes or rags may cause fire and evolution of toxic gases. Store in a tightly closed container. Remove and wash contaminated clothing promptly.

USE DILUTION TABLE

PPM Chlorine	Oz Alpha San 200	Gals Water
100	1/2 oz	5 gals
200	1 oz	5 gals
