

### CAUTION

Avoid contact with food. Harmful if swallowed.

Avoid contact with skin & eyes. In case of contact with eyes, immediately flush with water, get medical attention.

### DIRECTIONS FOR USE

It is a violation of a federal law to use this product in a manner inconsistent with its labeling.

### GENERAL PROCEDURES

Use dilution recommendations are general. Consult your state and local health authorities for specific uses.

Food contact surfaces, equipment, dishes, and utensils treated with sanitizing solutions exceeding 25 PPM titratable iodine, must be rinsed with potable water before reuse.

Do not mix with soap or alkaline cleaners.

Do not use in water exceeding 125°F.

### FOOD PROCESSING

Alpha Dyne is a low foaming germicide, detergent and is recommended for use in the food, dairy and meat-packing industries.

1. 100 PPM titratable iodine solution for terminal cleaning of food processing equipment.

2. 100 PPM solution for manual cleaning procedure.

3. The cleaning use of 25 PPM titratable iodine solution for sanitizing water systems.

### ALPHA DYNE DILUTION TABLE

- 1. 1 oz. Alpha Dyne per 10 gal. water = 12.5 PPM titratable iodine
- 2. 2 oz. Alpha Dyne per 10 gal. water = 25 PPM titratable iodine
- 3. 4 oz. Alpha Dyne per 10 gal. water = 50 PPM titratable iodine

## CAUTION

KEEP OUT OF REACH OF CHILDREN  
See side panel for additional precautions

AN IODINE GERMICIDAL DETERGENT

# ALPHA DYNE

#### Active Ingredients

Butylpolyoxypropoxyethylene	
iodine Complex (Providing 1.6% Titratable iodine)	12.54%
inert ingredients	87.46%
<b>Total</b>	<b>100.00%</b>

Net Contents: 1 U.S. Gallon (3.7854 Liters)  
E.P.A. REG. NO. 10634-4 E.P.A. EST. NO. 10634-MA-1

MANUFACTURED BY  
ALPHA CHEMICAL SERVICES, INC. - STOUGHTON, MASS.

### RESTAURANTS

1. Scrape and pre-wash utensils and glasses whenever possible.
2. Wash with a good detergent or compatible cleaner.
3. Rinse with clear water.
4. Sanitize in a solution of 1 ounce to 10 gallons of water (12.5 PPM). Immerse all utensils for at least two minutes or for contact time specified by governing sanitary code.
5. Place sanitized utensils on a rack or drainboard to air dry.

NOTE: A clean potable water rinse following sanitization is not permitted under Section H 96.06 (3) (b) of the Wisconsin Administrative Code (Approved under the regulations of the Wisconsin State Division of Health).

### NOTE

Alpha Dyne qualifies under the federal regulation 121.2547 eliminating the need for a final potable water rinse at use dilutions providing up to 25 PPM of titratable iodine.

U.S. Patent No. 3,028,299

### STORAGE AND DISPOSAL

**STORAGE:** Store in original container. Avoid temperature extremes of 32°F. to above 130°F. Keep container tightly closed when not in use. Protective rubber or polyethylene gloves and goggles or face shield are recommended when handling product. Be sure area is adequately ventilated before using product. In case of spill or leak neutralize iodine with Sodium Thiosulfate or Sodium Sulfite. Flush with water. DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

**DISPOSAL:** Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility. Container Disposal Statement for Plastic Containers: Triple rinse or equivalent. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or in operation, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
