#### **DIRECTIONS FOR USE:**

It is violation of a federal law to use this product in a manner inconsistant with its labeling.

ALPHA SAN 300 is recommended for use on hard (non - porous) surfaces, on dishes, glasses or food processing , equipment or utensits, including dairy and brewery equipment at a related steps.

Prepare sanitizing solution by dissolving 1 oz. or 2 oz. of APLHA SAN 300 per 10 gal. of water. This gives a solution containing 100 ppm or 200 ppm available chlorine respectively. Clean and rinse item o. surface prior to sanitizing. Then place dishes, glasses, equipment or utensils in the solution or spread it over the surface to be sanitized. Let stand 2 to 5 minutes and then wipe excess away. Rinse items and surfaces with potable water prior to use.

The same solution may be used in the fect tank in immersion or spray type machines providing 2 to 5 minutes of contact time for sanitizing dishes, glasses, food processing equipment and utensils. Clean and rinse items prior to sanitizing. After sanitizing step, rinse well with potable water and dry. The items are then ready for use.

The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is reused and tests show the level of chlorine has not been maintained, additional ALPHA SAN 300 should be added to maintain a minimum concentration of 100 ppm available chlorine.

#### STORAGE AND DISPOSAL:

Store in a cool, dry area away from direct sunlight or heat. In case of spill, flood area with large quantities of water. Rinse empty container thoroughly with water and discard by placing in trash collection or burying it in approved landfill area. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
