AND POLLUTION PREVENTION

Subject: LOW TEMP SANITIZER
EPA Reg.#: 10634-20003
Amendment Date: May 31, 2013
Receipt Date: June 19, 2013

Dear Ms. Daukovicz:

This acknowledges the receipt of your Amendment application dated May 31, 2013 in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended.

Proposed Amendment:

Amend the label by deleting the fogging/misting directions for use for "LOW TEMP SANITIZER" product (EPA Reg# 10634-20003).

General Comment:

Based on the review of the materials submitted, this amendment for "LOW TEMP SANITIZER" product label (dated 05/31/13 and pin punch 06/04/13), is **acceptable**.

This amended stamped label and this letter have been inserted in your file for future reference.

If you have further question on this letter, please contact David Liem by email at liem.david@epa.gov or call at 703-305-1284.

Sincerely

A handwritten signature in black ink, appearing to read "Demson Fuller", with a horizontal line extending to the right.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Contact with eyes, nose, throat, or broken skin causes eye damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors, and the poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this pesticide into streams, rivers, or other bodies of water. Do not discharge effluent into waterways. Do not discharge effluent into waterways. Do not discharge effluent into waterways. Do not discharge effluent into waterways.

PHYSICAL AND CHEMICAL HAZARDS

Mix only with water according to label directions. Mixing this product with gross filth such as feces, urine, etc., or with ammonia, acids, detergents or other chemicals may release hazardous gases irritating to eyes, nose, throat, and lungs.

NOTE: This product degrades with age. Use a chlorine test kit and increase dosage as necessary, to obtain the required level of available chlorine.

This product may be applied only by the methods specified on the labeling.

RINSE METHOD: A 100 ppm solution of available chlorine is available. Solutions containing an initial concentration of 100 ppm available chlorine must be tested and adjusted periodically to insure that the available chlorine concentration remains at 100 ppm. Solutions containing an initial concentration of 100 ppm available chlorine must be tested and adjusted periodically to insure that the available chlorine concentration remains at 100 ppm.

STORAGE: Store in a dry place no lower in temperature than 50 deg. F or higher than 120 deg. F. Do not store empty container. Triple rinse empty container with water. Return metal drum then offer for reconditioning or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

DISINFECTANT AND GERMICIDE

LOW TEMP SANITIZER

ACTIVE INGREDIENTS: SODIUM HYPOCHLORITE 9.2%, OTHER INGREDIENTS 90.8%, TOTAL 100.0%

KEEP OUT OF REACH OF CHILDREN DANGER

FIRST AID

Have the product container or label with you when calling a poison control center or doctor. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

NET CONTENTS: 55 Gallon

EPA REG NO. 10634-20003 EPA EST NO. 10634-MA-01

Manufactured By:

Alpha Chemical Services Inc.

Revised: 05/21/2013

FLOWPRESSURE METHOD: Disassemble equipment and thoroughly clean after use. Assemble equipment in operating position prior to use. Prepare a volume of a 200 ppm solution equivalent to the available capacity of the equipment by mixing the product with water to obtain 50 ppm available chlorine. Rinse all surfaces with the product until full flow is obtained at all extremities, the system is completely filled with the sanitizer and all air is removed from the system.

200 PPM AVAILABLE CHLORINE: Thoroughly clean equipment after use. Prepare a volume of effluent containing less than 50 ppm available chlorine. Rinse all surfaces with the product until full flow is obtained at all extremities, the system is completely filled with the sanitizer and all air is removed from the system.

RINSE METHOD: Prepare a 600 ppm solution by thoroughly mixing 5 oz. of this product with 5 gallons of water. Clean surfaces in the normal manner. Rinse all surfaces thoroughly with water. Rinse all surfaces with water until all sanitizer residue is removed.

FRUIT AND VEGETABLE WASHING: Thoroughly clean all fruit and vegetables by thoroughly washing in an immersion tank. 5 oz. of this product with 5 gallons of water. Clean surfaces in the normal manner. Immerse equipment in the 600 ppm solution for at least 2 minutes. Prepare a 200 ppm solution by thoroughly mixing 2 oz. of this product with 5 gallons of water.

COMMERCIAL LAUNDRY SANITIZERS: Wet fabrics or clothes should be spun dry prior to sanitization. Thoroughly mix 2 oz. of this product with 5 gallons of water. Clean surfaces in the normal manner. Immerse equipment in the 600 ppm solution for at least 2 minutes. Prepare a 200 ppm solution by thoroughly mixing 2 oz. of this product with 5 gallons of water.

STORAGE: Store in a dry place no lower in temperature than 50 deg. F or higher than 120 deg. F. Do not store empty container. Triple rinse empty container with water. Return metal drum then offer for reconditioning or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinseate is a violation of Federal Law. If these wastes can not be disposed of by use according to label instructions, contact your State Pesticide Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

FARM PREMISES

Remove all animals, poultry and feed from premises, vehicles and enclosures. Remove all litter and manure from floors, walls and surfaces of barns, pens, stalls, chutes and other facilities occupied or transversed by animals or poultry. Empty all troughs, racks and other containers. Rinse with water. To disinfect, saturate all surfaces with a solution of at least 1000 ppm available chlorine for a period of 10 minutes. A 1000 ppm solution can be made by mixing 1000 ppm available chlorine with 100 gallons of water.

COOLING TOWER/EXHAUSTIVE CONDENSER WATER: When system is noticeably fouled, apply 58 oz. of this product per 10,000 gallons of water in the system to obtain 5 to 10 ppm available chlorine. Repeat until control is achieved.

CONTINUOUS FEED METHOD: Initial Dose: When system is noticeably fouled, apply 58 oz. of this product per 10,000 gallons of water in the system to obtain 5 to 10 ppm available chlorine. Repeat until control is achieved.

STORAGE AND DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Fill the remaining contents into application equipment or a mix tank. Fill the container with water. Swirl the contents and pour into the application equipment. Repeat this process three times, ensuring at least one complete revolution for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Repeat this procedure two more times.

STORAGE: Store in a dry place no lower in temperature than 50 deg. F or higher than 120 deg. F. Do not store empty container. Triple rinse empty container with water. Return metal drum then offer for reconditioning or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinseate is a violation of Federal Law. If these wastes can not be disposed of by use according to label instructions, contact your State Pesticide Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
