

This is a cleaner disinfectant and sanitizer designed for general household use, schools, food processing plants and light industrial and hospital applications where housekeeping is of prime importance in controlling the hazard of cross contamination. When used as directed, it is formulated to disinfect inanimate hard surfaces (such as walls, floors, sink tops, toilet bowls, tables, chairs and telephones). For larger areas, such as patient care facilities and restrooms, the product is designed to provide both general cleaning and disinfecting.

In addition, it deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, toilet bowls, and any other areas which are prone to odors caused by microorganisms.

DISINFECTION - At 2 ounces per gallon dilution, it exhibits effective disinfectant activity against the organisms: *Salmonella choleraesuis* and *Staphylococcus aureus*.

At this level the product is also fungicidal against the Pathogenic fungi, *Trichophyton mentagrophytes*.

At 3 ounces per gallon dilution, it is an effective hospital disinfectant and demonstrates disinfectant activity against *Pseudomonas aeruginosa*.

Efficacy tests have demonstrated that it is an effective bactericide, and fungicide, in the presence of organic soil (5% blood serum).

Mold and Mildewstat - It prevents and controls mold and mildew and the odors they cause on hard non-porous inanimate surfaces at 2 ounces per gallon dilution.

SANITIZATION - When used for sanitization of previously cleaned food equipment or food contact items limit active quaternaries to 200ppm. At this level POTABLE WATER RINSE is required.

It is an effective sanitizer when diluted in water up to 500ppm hardness ( $\text{CaCO}_3$ ).

#### STORAGE AND DISPOSAL

- DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL
- OPEN DUMPING IS PROHIBITED
- DO NOT REUSE EMPTY CONTAINER

Pesticide Disposal - Pesticides that cannot be used or chemically re-processed should be disposed of in a landfill approved for pesticide or buried in a safe place.

Container Disposal - Triple rinse (or equivalent) and dispose in an incinerator or landfill approved for pesticide containers, or bury in a safe place.

Sentry Chemical Co.  
1481 Rock Mountain Blvd.  
Stone Mountain, GA 30086

Attention: Mr. Howard Mauskhacht

Gentlemen:

Subject: Sentry Malt  
EPA Registration No. 10663-3  
Your Application Dated August 2, 1982

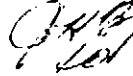

The amendment referred to above, submitted in connection with registration under FIFRA is acceptable, provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
  - a. We attached an enclosure on the type size requirements for the signal word "Warning" and the Child Hazard Warning "Keep Out of Reach of Children." We also attached an enclosure "The Label" to aid you in meeting type size requirements.  
  
Note: The product name must appear on the front panel.
  - b. After a preliminary review of your draft label for the above referenced product, we have determined that this product is subject to Child Resistant Packaging regulations (effective March 9, 1981). Refer to 40 CFR 162.16 "Pesticides Requiring Special Packaging" and the Federal Register Vol. 46, No. 41, Tuesday, March 3, 1981, pps. 15104-15109 "Clarification of Policy Issues on Special Packaging" for guidance and proper submission requirements.
2. Submit five (5) copies of your final printed labeling before you release the product for shipment.
3. We note that you have changed the name of the product from the registered "Sentry Malt Cleaner Disinfectant Deodorant Cleaner" to "Malt Detergent/Disinfectant."

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 5(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

John H. Lee  
Product Manager (31)  
Disinfectants Branch  
Registration Division (TS-767C)
