YARDMAN

CHEMICAL WEED PICKER & LAWN EDGER
ELIMINATES HAND-WEEDING
AQUATIC WEED KILLER

WARNING

May be fatal if swallowed, inhaled, or absorbed through skin. Prolonged skin contact causes skin irritation. Do not get concentrate material on skin, eyes or on clothing. If swallowed, induce vomiting and call physician immediately. Avoid contact with skin, eyes and clothing. Concentrate may cause skin damage. Symptoms of injury may be delayed. When spraying or when contacting sprayed vegetation wet with spray, dew or rain wear waterproof footwear and clothing. Do not breathe spray mist in order to avoid nasal, throat and respiratory tract irritation. In case of contact, immediately remove clothing and wash thoroughly and get medical attention. For eyes wash thoroughly with water and see physician.

ENVIRONMENTAL HAZARDS

During application avoid drift to adjacent food and forage plantings that might be damaged or the crops thereof rendered unfit for sale, use or consumption.

Do not apply directly to water except as specified on this label. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Read entire label. Use strictly in accordance with label warnings and directions, and in conformity with Federal & State regulations.

STORAGE AND DISPOSAL

STORAGE Do not store with or near feed and foodstuffs or drinking water.

PESTICIDE DISPOSAL Pesticide, spray mixture, or rinse water that cannot be used according to label instructions must be disposed of according to applicable Federal, state or local procedures.

CONTAINER DISPOSAL Do not reuse empty drum. Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or by other approved state and local procedures.

Wash sprayer immediately after application with detergent and water, then rinse with clean water.

Kills unwanted plants only through leaf contact, non-selectively. Does not sterilize soil. Effects are visible in a few days on grasses, weeds, broadleaf plants, and aquatic weeds.

ACTIVE INGREDIENTS

Diquat dibromide (6,7-dihydrodipyrido (1,2-a:2',1'-c) pyrazinedium dibromide) 1.85%
INERT INGREDIENTS 98.15%
TOTAL 100.00%

*This product contains 0.10 lbs. Diquat Cation gal. as 0.19 lbs. salt gal.

U.S. Pat. No. 2,823,987

KEEP OUT OF REACH OF CHILDREN

WARNING

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Drink one or two glasses of water. Induce vomiting by placing finger in back of throat. Call a physician. Never give anything by mouth to an unconscious person.
If Inhaled: Get to fresh air.
If On Skin: Remove clothing and wash skin with soap and water.
If In Eyes: Flush with water for 15 minutes and get medical attention.

Manufactured By

CHEMICAL WEEDING AND EDGING

To kill above ground weed growth around buildings, ornamental gardens, walkways, driveways, beneath bushes, fence lines, spray diluted solution (1 gal. to 20 gal. water or 6 oz. to 1 gal. water) directly on unwanted foliage, wetting it thoroughly.

Spray diluted solution into weed filled hedges and bushes. After several days dead weeds can be raked out easily - no more hand pulling. Do not use on desirable ornamentals or cropland. Apply preferably to young growth and up to seeding of weeds. Repeat applications necessary to maintain control, particularly on grasses and established weeds. Avoid spray contact with foliage of food crops or ornamental plants. Do not water treated areas for 24 to 36 hours after application.

GOLF COURSES

Sprayed into sandtraps will kill the green vegetation in the trap. The sand will inactivate any weed killer falling on it. Sand treated with weed killer chipped onto the green will not damage the turf grasses. Use spray dilution given above.

AQUATIC DIRECTIONS

For application only to ponds, lakes, and drainage ditches where there is little or no outflow of water and which are totally under the control of the product's user. Do not use the treated water for animal consumption, swimming, spraying, irrigation, or domestic purposes for 14 days after treatment. Do not apply to aquatic sites in Florida. Do not apply to muddy water and do not agitate water excessively with outboard motor or injection equipment during application.

Kills weeds, algae and aquatic foliage in still ponds and lakes. Treatment of aquatic growth can result in oxygen loss from decomposition of dead vegetation. This loss can cause fish suffocation. Therefore, to minimize this hazard treat 1/3 to 1/2 of the water area in a single operation and wait at least 10-14 days between treatments. Begin treatment along the shore and proceed outwards in bands to allow fish to move into untreated areas. Consult your State Fish and Game Agency before applying this product in public waters.

Disperse from a slowly moving boat in a back and forth, crisscross pattern according to following dilutions:

TYPES OF SUBMERSED AQUATIC WEED GROWTH

TYPE OF WEED GROWTH	1 GAL. PRODUCT PER	2 GAL. PRODUCT PER	3 GAL. PRODUCT PER	4 GAL. PRODUCT PER	5 GAL. PRODUCT PER
