

SL-55

Slimicide/Algaecide for Industrial Re-Circulating Water Cooling Systems. Helps Keep Water Systems Clean and Free of Bacterial and Algae Slimes.

DIRECTIONS

This product is used to control algae, bacteria and fungi in recirculating commercial and industrial water cooling towers. Prior to its use, systems must be cleaned to remove algae growth, microbiological slime and other deposits. An initial slug addition of 6.13 to 15.32 fluid ounces of this product per 1000 gallons of water to provide an active ingredient concentration of 4.8 to 12.0 parts per million based on the total weight of water in the system is recommended. Repeat initial dosage until control is evident. Subsequent slug additions of 1.53 to 15.32 fluid ounces of this product per 1000 gallons of water (1.2 to 12.0 parts per million of active ingredient based on the total weight of water) should be employed every 2 to 5 days or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions should be made in the sump of water cooling towers.

ACTIVE INGREDIENT:

Poly[oxyethylene(dimethyliminio) ethylene(dimethylimino) ethylene dichloride].....10.0%

INERT INGREDIENTS.....90.0%
100.0%

Weight Per Gallon.....8.49 lb.

Weight Active Ingredient
Per Gallon.....0.85 lb.

CAUTION

KEEP OUT OF REACH OF CHILDREN

See precautions on side of label.

Harmful if swallowed with skin. In case of contact, wash with water for at least 15 minutes. Seek medical attention. This product is not to be discharged in effluent where it may cause pollution. Do not contaminate water. Do not dispose of waste in water. Do not reuse empty drum for anything other than conditioning or cleaning in a safe place.

CAUTION

Harmful if swallowed. Do not get in eyes. Avoid contact with skin. In case of contact, flush with plenty of water for at least 15 minutes. If eye irritation persists, get medical attention. Avoid contamination of food.

This product is toxic to fish. Do not discharge treated effluent where it will drain into lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Use only as directed on label.

Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place.
