NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling change listed below before you release the product for shipment:

a. Add the phrase "EPA registration no. 10663-35."

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

**DESCRIPTION**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is primarily designed for use in and around farm premises.

It is a surface active microbicide, with a wide spectrum of activity.

It is both bactericidal and fungicidal in action and is non-staining when used as directed. It has rapid and irreversible antibacterial activity and its wide range includes bacteria and pathogenic fungi.

This product has excellent surface activity, wetting, deodorizing and penetrating properties for reaching corners, crevices and cracks and other areas normally difficult to treat. It is simple and economical to use.

It has detergent action, together with a tolerance to the presence of proteins (e.g. 5% blood serum) and when used routinely it will maintain control over the growth of bacteria and other offensive micro-organisms within the environment.

**PRECAUTIONARY STATEMENTS**
