JUL 15 1999

Subject: Magnacide 407 Industrial Bactericide  
EPA Registration No.10707-3  
Letter Dated April 1999

Attn: Roberto F. Ceron  
Registration Specialist

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, to add the new address to the label, is acceptable. A stamped copy of the label is enclosed for your records.

Please submit one (1) copy of the finished printed label before this product is released for shipment. If you have any questions concerning the comments in this letter, you should contact Zenobia Jones at (703) 308-6198.

Sincerely,

Velma Noble  
Product Manager 31  
Regulatory Management Branch 1  
Antimicrobial Division (7510W)

STATEMENTS

#### OILFIELD INJECTION AND WASTE WATER

MAGNACIDE 407 Industrial Bactericide should be added to the water handling system at a point of uniform mixing such as the area of addition of make up water to the holding tank.

CONTINUOUS INJECTION: Add MAGNACIDE 407 Industrial Bactericide at 1 part per 1,500 parts water (20 gallons per 1,000 bbl water) when system is noticeably fouled. When microbial control is evident, add 1 part MAGNACIDE 407 Industrial Bactericide per 3,000 parts water (14 gallons per 1,000 bbl water) to maintain control.

BATCH TREATMENT: Add MAGNACIDE 407 Industrial Bactericide at 1 part per 2,500 parts water (18 gallons per 1,000 bbl water) over a period of 6 hours one or more times per week when the system is noticeably fouled. When microbial control is evident, add 1 part MAGNACIDE 407 Industrial Bactericide per 5,000 parts water (9 gallons per 1,000 bbl water) over a period of 6 hours one or more times per week.

#### OIL WELL SANITIZING

Mix 25-55 gallons of MAGNACIDE 407 Industrial Bactericide with sufficient water to cover the producing interval. Inject down the casing or tubing followed by sufficient over flush to force the treated solution into the formation around the well bore. Shut in the well for 8-24 hours before returning to production.

#### STORAGE AND DISPOSAL

1. PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal.
2. STORAGE: This product is corrosive to mild steel. Do not store or transport in unlined metal containers.
3. PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
4. CONTAINER DISPOSAL:  
Metal Containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.  
Plastic Containers: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.  
General: Consult federal, state and local authorities for approved alternative procedures.
