

DEC 21 1993

Pat Gibson
 Baker Performance Chemicals, Inc.
 3920 Essex Lane
 Houston, TX 77027

Dear Mr. Gibson:

Subject: Revised Label
 Magnacide B Microbiocide
 EPA Registration No. 10707-10
 Your Submission Dated December 21, 1993

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable with the following provision:

The Restricted Use box must appear at the very top of the front panel. No other wording should appear above it.

A stamped copy is enclosed for your records. Please submit five (5) final printed copies for the referenced label, incorporating the above change, before releasing the product for shipment.

Sincerely yours,

Joanne I. Miller
 Product Manager (23)
 Fungicide-Herbicide Branch
 Registration Division (7505C)

RESTRICTED PRODUCT

FOR RETAIL SALE BY APPLICATORS OR DISTRIBUTORS ONLY. CERTIFIED APPLICATORS ONLY.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS **DANGER**

EXTREMELY FLAMMABLE AND IRRITATING VAPOR AND LIQUID. POISONOUS BY INHALATION, SKIN CONTACT OR SWALLOWING. DO NOT BREATHE VAPOR. CORROSIVE. CAUSES EYE DAMAGE AND SKIN BURNS. DO NOT GET IN EYES, ON SKIN, OR ON CLOTHING. KEEP AWAY FROM FIRE, SPARKS AND HEATED SURFACES.

Wear goggles and rubber gloves during handling. If spilled on clothing, gloves, or shoes, remove them immediately and wash thoroughly before reuse. Use with adequate ventilation. Keep available at all times a mask or pesticide respirator jointly approved by the Mine Safety and Health Administration and the National Institute of Occupational Safety and Health (NIOSH).

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

DANGER: Acrolein, the active ingredient in MAGNACIDE B, is highly reactive chemically and readily forms polymers. If alkalis (such as ammonia and caustic) or strong acids are brought in contact with MAGNACIDE B in a closed system, the Biocide can polymerize with sufficient violence to rupture the container. Do not apply with equipment used for acids and alkalis. Contamination of MAGNACIDE B with any foreign matter must be avoided. Clean application equipment with large amounts of water after using. Do not use or store near fire, sparks, and heated surfaces.

A supply of 10% sodium bisulfite solution should be readily available for neutralizing spilled MAGNACIDE B. All spills should be contained and neutralized before disposal. (Note—sodium bisulfite solutions are corrosive to steel and concrete.) Running water should be readily available to wash down the area after neutralization.

STATEMENT OF PRACTICAL TREATMENT CALL A PHYSICIAN IMMEDIATELY IN ALL CASES OF SUSPECTED POISONING

IF IN EYES: hold eyelids open and flush with water for 15 minutes. Get medical attention.

IF ON SKIN: wash with plenty of soap and water. Get medical attention.

IF SWALLOWED: do not induce vomiting. Drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately. Probable mucosal damage may contraindicate the use of gastric lavage. Measure against circulatory shock, respiratory depression and convulsion may be needed. **NEVER GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON.**

IF INHALED: get victim into fresh air immediately and give artificial respiration if breathing has stopped.

NOTE TO PHYSICIANS

WARNING SIGNS AND SYMPTOMS: Liquid MAGNACIDE B is especially irritating to any lesion and to the eyes. The vapors, mucous membranes of the eyes and respiratory tract. Occasional lachrymatory warning effect, the concentration tolerable by man is 100 ppm. Lethal concentration.

TREATMENT: Treat exposed area as a chemical burn. Thoroughly wash with water and treat symptomatically. Persons exposed to MAGNACIDE B may progress to pulmonary edema. Therefore, it is advisable to keep MAGNACIDE B under observation for 24 hours following exposure.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

MAGNACIDE B is a water soluble material for the control of bacteria in water injection systems. This material must only be applied in accordance with the MAGNACIDE B Application and Safety Manual under the supervision of licensed applicators.

STORAGE AND DISPOSAL

STORAGE OF MAGNACIDE B TANKS

Full tanks of acrolein should be stored in an open or well ventilated area away from other chemicals. No alkalis or oxidizing materials should be stored near tanks. Equipment should be explosion proof and properly grounded. Do not return empty containers to Baker Performance Chemicals.

DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of liquid or spray mixture, or residue is a violation of Federal Law. If these wastes are disposed of by use according to label instructions, contact your local Environmental Control Agency, or the Hazardous Waste representative of the nearest EPA Regional Office for guidance.
