

A Baker Oil Tools Company

(EPA Reg. No. 10707-26)

MAGNACIDE ©G100W

DESCRIPTION

MAGNACIDE ©G100W is a highly-effective, winterized, broad spectrum bactericide prepared from a synergistic blend of carbamates. MAGNACIDE G100W is highly effective against sulfate reducing, sulfide forming and slime forming bacteria. MAGNACIDE G100W is anionic in nature, providing penetration into slime masses and adherence to metal surfaces which prevent further bacterial slime buildup in secondary oil recovery water injection systems.

TYPICAL PHYSICAL PROPERTIES

pH	13.1
Density, lbs/gal.	11.18
Pour Point °F	-10
Flash Point °F	>200

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

TREATMENT LEVELS

The preferred method of treatment is by continuous injection using a chemical pump rate of 50-500 ppm. (0.21 gal. to 2.1 gal. per 100 lbs. of water) of MAGNACIDE G100W depending upon the severity of the bacterial problem. Batch treatments should be at the same rates. Apply at a point in the system where MAGNACIDE G100W will be uniformly mixed. Frequent monitoring of the bacterial population is recommended.

HANDLING INSTRUCTIONS

Active Ingredient: Potassium Dimethyldithiocarbamate

ACCEPTED
SEP 14 1989
Under the Federal Insecticide, Fungicide and Rodenticide Act, as amended for the pesticide registered under EPA Reg. No. 10707-26

KEEP OUT OF THE REACH OF CHILDREN

DANGER

DANGER: Corrosive. Causes eye damage and skin damage. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT

In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, promptly drink 1 or 2 glasses of water. Contact a physician or Poison Control Center immediately. DO NOT INDUCE VOMITING.

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and wildlife. Do not apply in marine and/or estuarine oil fields. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not expose to extreme temperatures. Do not stack more than four drums high. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes can not be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

METAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

PLASTIC: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

General - Consult federal, state or local disposal authorities for approved alternative procedures.
