SUBJECT: February 5, 2003 amendment
BPC 68955
EPA Registration 10707-37

Dear Mr. Fuss:

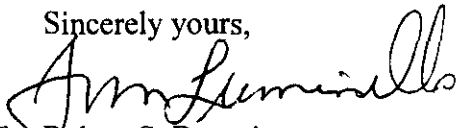

The revised label referred to above, submitted in connection with registration of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable with the following conditions. The language in the Precautionary Statements as well as all other parts of the label must be restored to the version of your prior most recently approved label (dated June 24, 1999) since your application did not seek to amend anything other than the First Aid statement. Acute toxicology data or citation of a substantially similar label are required to approve the changes in your draft label. The following changes are required:

1. Under Precautionary Statements, restore "...and rubber gloves when handling this product" at end of Wear goggles, face shield or safety glasses, ...
2. Under Precautionary Statements, restore "...and before eating, drinking, or using tobacco..
3. Under Precautionary Statements: add separately in between wash and before.
4. Change Inert Ingredients to Other Ingredients.
5. Restore Available Chlorine to 89%.
6. Restore order of First Aid as follows: Swallowed, Eyes, Skin, Inhalation.
7. Restore appropriate container weights to Net Contents.

The Confidential Statement of Formula (CSF) you have submitted is not acceptable and is being returned for corrections as noted. Your cover letter indicates that this CSF is intended to add an additional supplier. In that case, your proposed CSF must be submitted as an alternative formulation.

A copy of your conditionally approved label is enclosed. Please submit 2 copies of the revised finished label to this Office for the file. If you have any questions regarding this letter, please contact Tom Luminello of my staff at (703) 308-8075.

Sincerely yours,

for 

Robert S. Brennis

PRECAUTIONARY STATEMENTS HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER CORROSIVE.

CAUSES IRREVERSIBLE EYE DAMAGE OR SKIN BURNS.
MAY BE FATAL IF INHALED.
MAY BE FATAL IF ABSORBED THROUGH THE SKIN.

Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

separately and before eating, drinking or using tobacco.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Use only clean, dry utensils. Mix only into water. Contamination with moisture, dirt, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire and/or explosion. Avoid any contact with flaming or burning material such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unstablized chlorinating compounds (e.g., calcium hypochlorite). Such use may cause a fire or explosion.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

EMERGENCY HANDLING

In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.

CONTAMINATION MAY CAUSE FIRE.
MIX ONLY WITH WATER.
