OCT 3 2006

Term of Issuance:

Conditional

Name of Pesticide Product:

MAGNACIDE® 575S

NOTICE OF PESTICIDE:

x Registration
Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Baker Petrolite Corporation 12645 W. Airport Blvd. Sugar Land, TX 77478

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

- 1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA section 4.
 - 2. You will submit an acceptable acute inhalation study 107 days from the date of this product registration.
 - 3. Make the labeling change listed below before you release the product for shipment:

Revise the "EPA Registration Number to read, "EPA Reg. No. 10707-57".

Signature of Approving Official:

Marshall Swindell

Product Manager Team-33

Regulatory Management Branch I

Antimicrobials Division (7510P)

Date:

OCT 3 2006

Page 2 of 2 (EPA Reg. No. 10707-57)

3. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely

Marshall Swindell Product Manager 33 Regulatory Branch I

Antimicrobials Division (7510P)

Enclosure: (Stamped Label)

PRECAUTIONARY STATEMENTS HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Prolonged or frequent skin contact may cause allergic reactions in some individuals. Harmful or fatal if swallowed. Avoid contamination of food. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge effluent containing this product into takes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local swage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store this product in a cool, dry area away from direct sunlight and heat to avoid deterioration. In case of a spill, flood the area with large quantities of water. PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent) all containers and offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its tabeling.

OIL FIELD WATERS

This product is used for the control of acid producing bacteria, general aerobic bacteria, and sulfate reducing bacteria in oilfield waters.

Treatment: This product should be added to the system at 30-1,000 ppm depending on the seventy of contamination. This product can be used in stagnant areas such as storage tanks, sumps and pits. For example, add 50-200 ppm of this product (1.75 - 7 pounds of this product per 100 barrels of water) at a point in the system where it will be uniformly mixed. Repeated treatment may be needed until control is achieved.

DRILLING MUDS AND WORKOVER OR COMPLETION FLUIDS

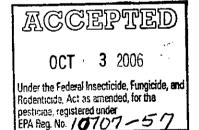

This product is effective in controlling bacteria in water-based drilling muds.

Treatment: This product should be added at 45-1000 ppm through the mud hopper or at the pump suction. For example, a 50 ppm treatment is 1.75 pounds per 100 barrels into the drilling mud circulating system.

WELL STIMULATION AND FRACTURING

This product is effective in controlling bacteria in fracturing fluid systems.

Treatment: This product should be added to the storage tanks at 45-1000 ppm at a point where uniform mixing will occur. For example, a 50 ppm treatment is 1.75 pounds per 100 barrels of fracturing fluid.

Net Contents: 32 lbs. or As Marked on Container
