

Purdy Products, Inc.  
1526 North 31st Street  
Milwaukee, WI 53208

MAR 08 1989

Attention: James P. Kucharski

Subject: Trophy NO-BAC PLUS  
EPA Registration No. 10710-5  
Your Application Dated January 2, 1987  
EPA Received Date December 2, 1987

The amendment referred to above, submitted in connect on with the Label Improvement Program Notice for Antimicrobial Products Used as Food Contact Surface Sanitizers, is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling.
  - a. On the top of the left panel, place the "Directions For Use" heading.
  - b. A contact time of 10 minutes is required for disinfection.
  - c. A contact time of 60 seconds is required for sanitization.
  - d. Delete all phenolic coefficients from the label.
  - e. The container disposal instructions should be grouped under the "Disposal" or "Container Disposal" headings.
  - f. Delete the statement "discard in a safe place."
  - g. The instructions for "Disposal" should read as follows:  
  
Do not reuse empty container. Rinse thoroughly and discard in trash.
  - h. On the center panel, delete "Sodium Carbonate" from the active ingredients and place it in the list of inert ingredients. Adjust the percentages accordingly.

CONCURRENCES

SYMBOL NUMBER							

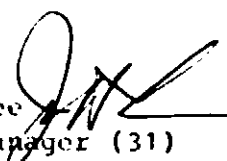

1. On the center panel, place the statement "Keep Out Of Reach Of Children" above the signal word "Danger."
2. On the left panel, place the statement "It is a violation of Federal law to use this product in a manner inconsistent with its labeling" directly below the "Directions For Use" heading.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with section 6(e) of the Federal Insecticide, Fungicide and Rodenticide Act. Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

If you have any questions concerning this letter, please contact Karen M. Leavy at (703) 557-3966.

Sincerely yours,

  
John H. Lee  
Product Manager (31)  
Antimicrobial Program Branch  
Registration Division (H7504C)

Enclosure

**Disinfection**

For best results use Trophy No-Bac Plus with a cloth or mop. Apply to walls, floors and other hard surface.

**Sanitization**

For sanitization of previously cleaned food equipment and contact items, limit the level of active quaternary to 2.3 ounces per 5 gallons of water. **NO RINSE REQUIRED AT THIS LEVEL.**

For heavy soil or organic matter, a pre-cleaning is recommended.

When used on environments containing bacteria, the product is fungicidal against bacteria, fungi and viruses.

**PHENOL COEFFICIENTS**      **Guaranteed**      **Minimum**

5:1      5:1

Destroy bacteria and viruses in 10 minutes.

**WARRANTY**

Use of this product is based on the manufacturer's instructions. The product is made as to the best of our ability and is warranted to be free from defects in material and workmanship.

in EPA Letter

MAR 08 1989

Trophy No-Bac Plus is designed for use in hospitals and other institutional settings. It is a quaternary ammonium compound and is effective against a wide range of bacteria, fungi, and viruses. It is also effective against Staphylococcus aureus, Pseudomonas aeruginosa, and Trichophyton. When used to disinfect equipment, it is effective against up to 200 ppm of bacteria.

Keep Out of Reach of Children and Pets. Avoid contact with eyes and skin. Wash thoroughly with water after use.

In case of contact with water for at least 15 minutes. Remove and wash with water. Do not swallow. If swallowed, do not induce vomiting. Call a physician.
