Reg. U.S.D.A. EPA No. 10717-2

WARNING: Keep out of reach of children.

GEIGER PRODUCTS

ST. PETERSBURG, FLORIDA 33732

What is it?

MILDEW ZONE is a crystalline chemical resulting from extensive research. This product, when used as directed will prevent damage resulting from mildew and mold.

How does it work?

A vaporizing chemical issues from the bag and this gas prevents mildew damage and moldy odors.

How is it used?

Just hang this bag in a clothes closet, place in a trunk or other storage container or any other tightly closed space in a quantity equal to one ounce for one hundred cubic feet.

What will it protect?

MILDEW ZONE will protect shoes, luggage, books, clothing, woolens, papers, and other similar articles from damage resulting from mildew or moldy odors. (Not camera film.)

The odor of MILDEW ZONE will not cling to any garment or material, nor will the odor affect or damage any material.

MILDEW ZONE does not absorb water and requires no heating or handling whatever. No fuss nor bother from the time the bag is hung in the closet to the time it is empty and you replace it with a fresh bag.

One bag when hung in a clothes closet will last from two to three months. Keep closet doors closed. If house is closed for longer period use 4.7 oz. MILDEW PAC - 6 month protection.
