NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Precautionary Statements Hazards to Humans and Domestic Animals

Warning: Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed or absorbed through skin. Avoid breathing vapors or mist. This product may cause skin sensitization.

Statement of Practical Treatment: In case of skin contact, wash promptly and thoroughly with soap and water. If product gets in eyes, flush immediately with copious amounts of clean, cool water for 15 to 20 minutes. Get medical attention immediately. If product is swallowed, call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

Environmental Hazards

This pesticide is toxic to fish. Do not apply directly to water. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

Physical and Chemical Hazards

Do not use or store near heat or open flame.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Storage and Disposal

(14 pt)

Storage: Keep container closed when not in use. Store in cool place. Leaking or damaged containers should be placed in a plastic bag and discarded in trash. All pesticides should be kept out of reach of children and stored away from food.

Disposal: Securely wrap original container in several layers of newspaper and discard in trash. Do not reuse container. Rinse thoroughly before discarding in trash.

Back Panel (cont)

Wood Guard Dark Finish Wood Preservative #1 controls termites.

Uses

Wood Guard Dark Finish Wood Preservative adds years of life to wood surfaces. Wood Guard Dark Finish protects wood by repelling wood-destroying termites. Product preserves wood exposed to moisture above or below ground. Protects wood against mold and decay. Wood Guard Dark Finish is a water repellent which limits water penetration to wood. Used on fence posts, sills, joists and wood in contact with the ground. For exterior use only. For best results, use two coats on wood which is to be in contact with soil. This material is not suitable for surfaces that are to be painted. Product may darken color of wood.

This product is not recommended for use on wood intended for food, feed, potable water, living plant, livestock or dairy animal contact surfaces. Although the product is not in itself a herbicide, any foundation or other plants growing beneath the area of application should be covered.

Directions

Work area should be well ventilated. Wood should be dry and well seasoned.

Brush Application - Apply two coats, using good quality brushes. Apply generous! around ends, knots, and checked places. Covers approximately 100-150 square feet per gallon, depending upon conditions of surface.

Dipping - Completely immerse timber. Protect from sparks and open flames. Fence posts, poles, foundation timbers and heavy wooden members should be free of bark, dry and well seasoned and immersed in the product for a minimum of 12 hours to effectively preserve wood.
