FLYING INSECT KILLER

**FOR USE INDOORS, IN
TENTS & CAMPING TRAILERS**

NET WT. 12 1/4 OZ.

CAUTION: KEEP OUT OF REACH OF CHILDREN
(See directions and cautions on back panel)

Coleman Flying Insect Killer is designed for use in and around cabins, tents, campers, and homes.

DIRECTIONS

Shake vigorously for best results. Point valve away from face, hold container upright, and press spray button.

To Kill Flies, Mosquitoes, Gnats, Wasps, and Flying Moths in Cabins, Tents and Homes. Close all doors, windows, tent flaps, and other openings. Direct spray upward into the center of the room and spray into the air with a slow sweeping motion. Spray six seconds for the average sized room (1000 cubic feet). Keep room closed for 15 minutes; do not remain in the room. Upon returning, ventilate room completely.

To Kill Roaches, Waterbugs, Silverfish, Crickets, and Spiders: Spray thoroughly into hiding places such as cracks and crevices around pipes and baseboards.

To Kill Ants: Spray trails and nests thoroughly, hitting as many insects as possible.

To Kill Bedbugs: Remove bedding and spray mattress, seams, and other hiding places. Thoroughly spray cracks and crevices in walls and floor adjacent to the bed. Repeat spraying at frequent intervals.

To Kill Fleas: Thoroughly spray floors, floor covering, and sleeping quarters of pets. Provide fresh bedding material. Repeat as required.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Contents under pressure. Store in a cool place, not over 120° F. Never throw in fire or incinerator. Excessive temperature may cause container to burst. Do not puncture can. Cover exposed food before spraying. Overspraying to the point of wetness may stain tent and sleeping bag fabrics.

ACTIVE INGREDIENTS: Pyrethrins 0.30%, Technical Piperonyl Butoxide 0.50%, consists of 0.45% isobutyl acrylate, 1.6 propyl piperonyl ether and 0.12% related compounds, N-octyl bicycloheptene Dicarbamate 1.00%, Petroleum Distillate 8.10%
INERT INGREDIENTS 99.00%
