Attention: Brooks O'Kane
President

Subject: Red Cross Nurse Hospital Disinfectant & Air Deodorizer
EPA Registration Number 10801-1
Your Amendment Dated August 24, 1995

This is in response to your amendment of revised labeling to reflect change in brand ownership and packaging as requested in your application dated August 24, 1995.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, is acceptable provided that you make the following revisions before you release the product for shipment bearing the amended labeling.

1. Under "Kills Household Germs", revise "toilet areas" to read "toilet seats".
2. On the back panel change "WARNING" to "CAUTION".
3. Move the ingredient statement to the front panel, as indicated on the last accepted label.
4. Place "Keep Out of Reach of Children" immediately above "CAUTION" on the front panel.

A stamped copy of the labeling is enclosed for your records. Submit one (1) copy of the final printed label prior to release of the product for shipment bearing the amended label.

RED CROSS NURSE®

Since 1869

Hospital Disinfectant & Air Deodorizer

KILLS HOUSEHOLD GERMS
Non-Aerosol • Meets AOAC Standards

CAUTION: Keep out of reach of children

16 FL. OZ.

See back panel for recommended precautions

This product has no connection whatsoever with the American National Red Cross. However, a donation of five cents is made to the American Red Cross with the sale of each bottle.

Red Cross Nurse Disinfectant and Air Deodorizer
Kills Household Germs The Red Cross Nurse kills household germs, in empty garbage cans, empty hamper, bathroom under sinks, pet areas, diaper pails and sick rooms.

- An effective surface disinfectant for:
- * Staphylococcus Aureus
 - * Pseudomonas Aeruginosa
 - * Salmonella Choleraesuis
 - * Mycobacterium Tuberculosis (effective in 10 min)

Fast/Easy/Effective: Use on finished surfaces in basements, closets, rooms, storage areas, vacation homes, boat interiors, shower stalls. Excellent for controlling mold and mildew on mattresses, pillows.

The Red Cross Nurse meets AOAC efficacy standards for hospital disinfectants.

Eliminates Odors: The Red Cross Nurse deodorizes by killing the source of odors. Red Cross Nurse eliminates odors at their source and in the air. Gaseous germicidal sprays can't do this. To eliminate odors retained in fabrics, curtains and upholstered furniture, Red Cross Nurse "gets to the source" without heavy perfume. Eliminates damp moist odors in the basement where the air doesn't circulate.

Directions for use: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

To disinfect: Hold container upright 6" to 8" from surface. Spray 3 to 5 times until covered with mist. Allow to stand ten minutes.

To control mold and mildew and their odors: Clean surface prior to spraying. Spray surface until covered with mist. Repeat applications as necessary.

To deodorize: Hold can upright. Spray on surfaces as needed.

PRECAUTIONARY STATEMENTS: Hazards to humans and animals. Warning: Avoid contact with eyes and food.

First Aid: In case of eye contact, immediately flush eyes thoroughly with water. Remove any contact lenses, and continue to flush eyes with plenty of water until medical attention is obtained. Get medical attention if irritation persists.

Physical Hazards: Flammable. Keep away from heat or open flame. Keep away from children. Do not spray on painted surfaces, leather, rayon fabrics or acrylic plastics.

Storage/Disposal: Store in original container in areas inaccessible to children. Replace cap and discard in trash. Do not reuse empty container.

Active Ingredients: Ethyl Alcohol 69.3% Inert Ingredients: 30.7%
