

**General:** Dursban with synergized pyrethrin treatment to control cockroaches, ants, crickets, silverfish, etc. as specified below. Using a suitable spray nozzle, spray thoroughly from a distance of 12-18 inches. Repeat as needed.

**To Kill Cockroaches, Ants, Crickets, Silverfish, etc.**

Spray areas where pests are found or likely to be found: corners of rooms and closets; cracks and crevices; under and around door and window frames; behind and between baseboards; under refrigerators and cabinets and around garbage cans; around utility installations. Pests driven out of hiding places will die directly. For ants apply to ant trails, also apply to cracks and wherever else these pests may find entrance.

**To Kill Brown Dog Ticks and Fleas:** Thoroughly

treatment to infested areas such as the interior of beds, under bed frames and between bed frames and floor. Old bedding should be removed and replaced with clean bedding. Repeat treatment as needed.

**Fleas and Mosquitoes:** Use only out-of-door

space from these pests. Spray outside air, patios, porches, as well as other areas where these pests may be found. Repeat as necessary. Also, localized treatments on patios and gardens where these insects may be found. Repeat as necessary. Repeat as necessary.
