Subject Amended Reregistration Label  
Product Name Sure Hit 25 Insect Killer  
EPA Registration Number 10806 41  
EPA Decision Numbers 427044 and 435942

Dear Ms Endres

The Agency in accordance with the Federal Insecticide Fungicide and Rodenticide Act (FIFRA) as amended has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the tetramethrin and sumithrin REDs and has concluded that your submission is acceptable

NOTE This product is **not** being reregistered under sections 3(c)5 and 4(g) of FIFRA at this time

Please be reminded that 40 CFR Part 156 140(a)(4) requires that a batch code lot number or other code identifying the batch of the pesticide distributed and sold be placed on non refillable containers The code may appear either on the label or durably marked on the container itself and can be added by non notification per PRN 98 10

Please note that the record for this product currently contains the Confidential Statements of Formulation (CSFs) listed below Any previously dated CSFs are superseded

Basic CSF dated 5/6/11

A copy of your label stamped Accepted is enclosed along with copies of the acute toxicity and product chemistry reviews completed for the subject product Products shipped after 12 months from the date of this amendment or the next printing of the label whichever occurs first must bear the new revised label Your release for shipment of the product bearing

2/10

( (

the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec 6(e).

If you have any questions about this letter, please contact Jennifer Urbanski at 703 347 0156 or [urbanski.jennifer@epa.gov](mailto:urbanski.jennifer@epa.gov)

Sincerely

Richard J Gebken  
Product Manager (10)  
Insecticide Branch  
Registration Division (7504P)

### First Aid

<b>If on Skin or Clothing</b>	<ul style="list-style-type: none"> <li>• Take off contaminated clothing</li> <li>• Immediately rinse skin with plenty of water for 15 20 minutes</li> <li>• Call a poison control center or doctor for treatment advice</li> </ul>
<b>If Inhaled</b>	<ul style="list-style-type: none"> <li>• Move person to fresh air</li> <li>• If person is not breathing call 911 or an ambulance then give artificial respiration preferably by mouth to mouth if possible</li> <li>• Call a poison control center or doctor for treatment advice</li> </ul>
<b>If Swallowed</b>	<ul style="list-style-type: none"> <li>• Immediately call a poison control center or doctor for treatment advice</li> <li>• Do not induce vomiting unless told to do so by a poison control center or doctor</li> <li>• Do not give <b>any</b> liquid to the person</li> <li>• Do not give anything by mouth to an unconscious person</li> </ul>

**Note to Physician** Contains petroleum distillate vomiting may cause aspiration pneumonia

Have the product container or label with you when calling a poison control center or doctor or going for treatment  
You may also contact 1 800 858 7378 for emergency medical treatment information

{Note The First Aid statements grid format will be used if label space allows otherwise a paragraph format will be used }

### PRECAUTIONARY STATEMENTS

**Hazards to Humans & Domestic Animals**

**CAUTION** Harmful if absorbed through skin Avoid contact with skin eyes or clothing Harmful if inhaled Avoid breathing vapors or spray mist

**ACCEPTED**  
JUN 26 2012

**Under the Federal Insecticide, Fungicide,  
and Rodenticide Act, as amended, for the  
pesticide registered under**

EPA Reg No 10806-41

**Personal Protective Equipment (PPE)**

Applicators and other handlers must wear long sleeved shirt long pants shoes socks and chemical resistant gloves Some materials that are chemical resistant to this product are barrier laminate nitrile rubber neoprene rubber and Viton  $\geq$  14 mils For more options follow the instructions for category E on the chemical resistance category selection chart

**User Safety Requirements**

Follow manufacturer s instructions for cleaning/maintaining PPE If no such instructions for washables exist use detergent and hot water Keep and wash PPE separately from other laundry Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product s concentrate do not reuse them

**User Safety Recommendations**

Users should wash hands before eating drinking chewing gum using tobacco or using the toilet immediately remove clothing/PPE if pesticide gets inside then thoroughly wash and put on clean clothing immediately remove PPE after handling this product As soon as possible thoroughly wash and change into clean clothing

**Environmental Hazards**

This pesticide is extremely toxic to aquatic organisms including fish and aquatic invertebrates Do not apply directly to water to areas where surface water is present or to inter tidal areas below the mean high water mark Do not contaminate water when cleaning equipment or disposing of equipment washwater or rinsate See *Directions for Use* for additional precautions and requirements This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the area

**Physical or Chemical Hazards**

Contents under pressure Do not use or store near heat or open flame Do not puncture or incinerate container Exposure to temperatures above 130 F may cause bursting

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling  
**Do not use** this product in areas other than residential or non food commercial areas

**Shake Well Before Use**  
**Hold can in upright position**  
**Apply in short bursts**

**Use Restrictions**

**When used indoors** Do not apply this product in a way that will contact workers or other persons either directly or through drift Only protected handlers may be in the area during application Do not enter or allow others to enter the treated area until the spray has dried Do not enter or allow others to enter treated areas until vapor mists and aerosols have dispersed and the treated area has been thoroughly ventilated Wait 2 hours after application then open windows vents and doors for 2 hours If an odor is still detected additional ventilation is required Do not use on humans domestic animals or pets Before spraying remove pets/birds cover fish aquariums and ornamental fish ponds and turn off aquarium systems Do not apply when food is present Do not use in food areas of food handling establishments restaurants or other areas where food is commercially prepared or processed Do not use in serving areas while food is exposed or facility is in operation Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held Non food areas are areas such as garbage rooms lavatories entries vestibules offices locker rooms machine rooms boiler rooms garages mop closets and storage areas (after bottling or canning)

**When used outdoors** Application is prohibited directly into sewers or drains or to any area like a gutter where drainage to sewers storm drains water bodies or aquatic habitat can occur Do not allow the product to enter any drain during or after application All outdoor applications must be limited to only spot or crack and crevice treatments except for the following permitted uses 1) Treatment to soil or vegetation around structures and 2) Applications to building foundations up to a maximum height of 3 feet Other than applications to building foundations all outdoor applications to impervious surfaces such as sidewalks driveways patios porches and structural surfaces (such as windows doors and eaves) are limited to only spot and crack and crevice applications Do not water the treated area to the point of run off Do not make applications during rain

This product is formulated to kill common pests Ants Brown Dog Ticks Carpet Beetles Centipedes Cockroaches Confused Flour Beetles Crickets Firebrats Fleas Flies Gnats Mosquitoes Rice Weevils Saw toothed Grain Beetles Small Flying Moths Sowbugs and Spiders

**To Kill Flies Gnats Mosquitoes and Small Flying Moths** Close all doors and windows and direct spray upward into center of room with a slow sweeping motion Spray 5 10 seconds for average room Keep room closed for 2 hours after spraying Thoroughly ventilate room before re entry Sweep up and destroy fallen insects

**To Kill Ants (except Carpenter Fire Harvester and Pharaoh) and Crickets** Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harboring these pests Pay special attention to cracks hidden surfaces under sinks behind stoves and refrigerators food storage areas and wherever these pests are suspected of hiding To kill ants treat doors around window frames areas under furniture and wherever these insects are seen or suspected Repeat as necessary but not more than once per week

**To Kill Carpet Beetles** Directly spray as many insects as possible Spray both interior and exterior of upholstered furniture Thoroughly spray both top and bottom of rugs and carpets Also treat shelves closets areas under furniture and wherever these insects are seen or suspected Repeat as necessary but not more than once per week

**To Kill Exposed Forms of Confused Flour Beetles Rice Weevils and Saw toothed Grain Beetles** Find and destroy infested package goods Remove all other items from pantry Spray the shelves to kill any of the named insects present Place clean paper on the shelves and return packages after shelves have dried Repeat as necessary but not more than once per week

**To Kill Centipedes Firebrats Sowbugs and Spiders (except Black Widow and Brown Recluse)** Contact as many insects as possible with the spray Also thoroughly spray all parts of the room suspected of harboring these pests Pay special attention to cracks crevices hidden surfaces under sinks behind stoves and refrigerators

**To Kill Brown Dog Ticks and Fleas** Remove and destroy pet s old bedding Spray pet s sleeping quarters around baseboards window and door frames wall cracks and local areas of floors Repeat as necessary but not more than once per week Put fresh bedding in pet s quarters after spray has dried Do not spray animals treat dogs and cats with a flea and tick control product registered for use on pets before allowing them to enter treated area

**Storage and Disposal**

Do not contaminate water food or feed by storage or disposal

**Pesticide Storage** Store upright in a cool dry (preferably locked) area inaccessible to children pets and away from heat open flame and sources of ignition **Pesticide/Container Disposal** Do not puncture or incinerate! **If empty** Place in trash or offer for recycling if available [This container may be recycled in aerosol recycling centers At present there are only a few such centers in the country Before offering for recycling empty the can by using the product according to the label] **If partly filled** Call your local solid waste agency for disposal instructions

{Per PR Notice 2007-4 the batch code/lot number will appear on the label or container }

**[Notice ]** To the extent permitted by applicable law buyer assumes all risk of use storage or handling of this material not in strict accordance with directions given herewith

{Enlargement  
No CFCs
