TO KILL BROWN DOG TICKS AND FLEAS: Remove and destroy old bedding. Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks, and local areas of floors. Repeat as necessary. Fresh bedding should be placed in animal quarters after spray has dried. Do not spray animals. Treat your pets with a registered flea and tick product to control the source of your infestation.

TO KILL CARPET BEETLES AND DERMESTIDS: Spray along baseboards, edges of carpeting, under carpets and rugs, under furniture, in closets, on shelving, and in other places of harbourage. Repeat as necessary.

FOR CRACK AND CREVICE - apply as follows: TO KILL ANTS, ROACHES, CRICKETS, SILVERFISH, SOWBUGS, SPIDERS, EARWIGS, BROWN DOG TICKS, FLEAS, CARPET BEETLES and DERMESTIDS: Application within food handling establishments (places other than private residences in which food is held, processed, prepared or served) including, but not limited to, restaurants, grocery stores, bakeries, bottling plants, canneries and grain mills: Use as a spot treatment to kill ants, roaches, crickets, silverfish, sowbugs, spiders, earwigs, brown dog ticks, fleas, carpet beetles and dermestides in and around both food and non-food areas by application to localized areas where the above pests have been seen or are suspected of hiding or entering. Apply only enough spray to thoroughly cover the surfaces treated using special care to avoid unnecessary runoff. Do not introduce the spray into the air or allow the spray to contact food or food-contacting surfaces. Areas treated may include dark corners of rooms and closets; along and behind baseboards; beneath and behind stoves; floor drains and around plumbing and other utility installations. Spot treatment may encompass crack and crevice treatment by applying small amounts of material directly into openings leading to voids and hollow spaces in walls, equipment legs and bases or which occur at points between different elements of construction or between equipment and floors. Do not apply this product in conduits, motor housing, junction boxes and switch boxes or other electrical equipment because of possible shock hazard.

STORAGE AND DISPOSAL

STORAGE: Store in a cool dry area away from heat or open flame.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.
