PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through skin. Avoid inhalation of spray mist. Avoid contact with skin, eyes or clothing. Wash contaminated skin promptly with soap and water. For eyes, flush with plenty of water and get medical attention if irritation persists. Do not remain in enclosed areas after treatment is completed. Avoid contamination of food and feedstuffs.

Do not use in commercial food processing, preparation, serving or storage areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed and rinsed with potable water before use. Cover exposed food. Remove pets, birds, and cover fish aquariums before spraying.

PHYSICAL AND CHEMICAL HAZARDS

CAUTION: CONTENTS UNDER PRESSURE. Do not use or store near fire, sparks, or heated surfaces. Do not smoke in use area. Do not puncture or incinerate container. Exposure to temperatures above 130 F may cause bursting. Incineration of container may cause explosion.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a Physician or Poison Control Center immediately. This product contains petroleum distillate solvent which presents aspiration hazard. **DO NOT INDUCE VOMITING.** Vomiting may cause aspiration pneumonia.

IF INHALED: Remove victim to fresh air. Apply artificial respiration if indicated.

IF ON SKIN: Remove contaminated clothing and wash affected areas with soap and water.

IF IN EYES: Flush eyes with plenty of water. Get medical attention if irritation persists.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

STORAGE: Store upright in a cool, dry area away from heat and open flame. **KEEP OUT OF REACH OF CHILDREN.** If container is damaged and leaking, allow contents to dissipate out of doors.

DISPOSAL: Do not reuse empty container. Replace cap, wrap container and discard in trash. Do not puncture or incinerate.

To kill Houseflies, Mosquitoes, Small Flying Moths, Gnats, Black Carpet Beetles, Spiders, Centipedes, Silverfish, Crickets, Firebrats, Bees, Wasps, Hornets and Ants. Aids in the control of Waterbugs and Cockroaches.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Cover exposed food, dishes, and food-handling equipment. Open cabinets, drawers, and doors to area to be treated. Shut off fans and air conditioners. Put out all flames and pilot lights. Unplug or turn off electrical equipment in use area. Close doors and windows. Point valve opening away from face and eyes when releasing. Use one unit for each 6,000 cubic feet of unobstructed area. Use additional units for remote rooms or where free flow of mist is not assured. Do not remain in the area during treatment and ventilate thoroughly before re-entry. Repeat spraying in two weeks or when necessary.

TO OPERATE VALVE AS A TOTAL RELEASE SPRAY

To lock valve for total activity, hold container upright away from you and point valve opening away from face and eyes. Press valve button all the way down until it hooks into and catches on bottom of rim. Then place fogger on stand or table in center of room with valve locked open, placing several layers of newspaper under can. Follow directions in above paragraph.

To Kill Ticks and Fleas: Destroy pet's old bedding and replace. Use product as above. Treat dogs and cats with registered tick control product prior to re-entry.

To Kill Houseflies, Mosquitoes, Small Flying Moths, Gnats, Wasps, Hornets and Bees: If operated manually do not use as a total release pressurized spray. Close all doors and windows. Spray about 5-10 seconds for average room. It is essential to hit flying insects. The airborne mist will kill insects as they fly through it. For Hornets and Wasps double the above dosage. Sweep up and destroy fallen insects. Repeat treatment as necessary.

To Kill Ants, Silverfish, Firebrats, Spiders, Centipedes, Crickets and aid in the control of Cockroaches and Waterbugs: Spray hidden places such as baseboards, crevices, openings around sinks and pipes under cabinets and refrigerators. To kill ants, treat doors, around window frames and ant trails. Spray directly on bugs when possible. Repeat as needed.

WARNING: Contains 1,1,1-Trichloroethane, a substance which harms public health and the environment by destroying ozone in the upper atmosphere.
