Subject: Amended Reregistration Label
Product Name: CONTACT WATER-BASED INDOOR FOGGER II
EPA Registration Number: 10806-97
Decision Number: 414477; 413738; 412481

Dear Ms. Davis:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the Pyrethrins, Piperonyl Butoxide, and MGK264 RED, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

NOTE: This product is **not** yet being reregistered under section 4(g) of FIFRA.

Please note that the record for this product currently contains the Confidential Statements of Formulation (CSFs) listed below. Any previously dated CSFs are superseded.

- Basic CSF, dated 08/26/2011
- Alternate A CSF, dated 08/26/2011

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

A copy of your label stamped "Accepted" is enclosed. Products shipped after 12 months from the date of this amendment or the next printing of the label, whichever occurs first, must bear the

Page 2 of 2
EPA Reg. No. 10806-97
Decision No. 414477; 413738; 412481

new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions about this letter, please contact Maggie Rudick by phone at 703-347-0257, or via email at rudick.maggie@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Gene Benbow".

First Aid

If on Skin or Clothing:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Immediately rinse skin with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If in Eyes:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. • Call a poison control center or doctor for treatment advice.
If Swallowed:	<ul style="list-style-type: none"> • Immediately call a poison control center or doctor for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person; immediately call a poison control center or doctor.
If Inhaled:	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. • Call a poison control center or doctor for further treatment advice.
<p>Have the product container or label with you with calling a poison control center or doctor or going for treatment. For information regarding medical emergencies or pesticide incidents call 1-888-740-8712.</p>	

{Note: The First Aid statements' grid format will be used if market space permits; otherwise a paragraph format will be used.}

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing vapors or spray mist; breathing spray mist may be harmful.

Personal Protective Equipment ("PPE")

Applicators and other handlers must wear: Long-sleeve shirt and long pants; shoes plus socks; and chemical-resistant gloves made of barrier laminate, nitrile or neoprene rubber or viton.

User Safety Requirements

Follow manufacturers' instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

User Safety Recommendations

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should immediately remove clothing/PPE after handling this product and if pesticide gets inside. As soon as possible, wash thoroughly and put change into clean clothing.

Physical or Chemical Hazards

Highly Flammable Ingredient!

Ingrediente Altamente Inflamable!

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. This product contains a highly flammable ingredient. It may cause a fire or explosion if not used properly. Follow the *Directions for Use* on this label very carefully.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product kills Cockroaches, Confused Flour Beetles, Crickets, Fleas, Houseflies, Pill Bugs, Saw-toothed Grain Beetles, Small Flying Moths, Rice Weevils and Ticks.

[Stop!] Read Entire Label Before Each Use.

Precautions and Restrictions

Shake well before use. Keep Container Upright.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Do not apply when food is present. Avoid contamination of food or feedstuffs. Do not treat establishments where livestock feed is present. Do not apply directly to food. Do not use in food/feed areas of food/feed handling establishments, restaurants, or other areas where food/feed is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas include areas where prepared foods are served such as dining rooms, but exclude areas where foods may be prepared or held. In the home, cover all food processing surfaces and utensils during treatment or thoroughly wash before use following treatment. Cover or remove exposed food. Non-food areas are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

To Use This Product Correctly

DO NOT use more than one fogger per room. **DO NOT** use in small, enclosed spaces such as closets, cabinets or under counters or tables. Use of a fogger in an enclosed space may cause the product to explode, resulting in injury to people or damage to property. Do not use in a room 5 ft. x 5 ft. or smaller; instead, allow fog to enter from other rooms. *Turn off ALL ignition sources such as pilot lights (shut off gas valves), other open flames or running*

electrical appliances that cycle off and on (i.e., refrigerators, thermostats, etc.). Call your gas utility or management company if you need assistance with your pilot lights.

{EPA Pre-Approved Pictogram 1:}

Do Not Use Multiple Canisters in a Room.

{EPA Pre-Approved Pictogram 2:}

Do Not Use in Small Confined Spaces.

{EPA Pre-Approved Pictogram 3:}

Unplug and Turn Off Ignition Sources.

{EPA Pre-Approved Pictogram 4:}

No Flames or Pilot Lights.

How to Use

Step 1: Before You Fog

Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment and food preparation surfaces, or wash them before use. Remove pets and birds; cover and turn off fish aquariums before activating fogger.

{EPA Pre-Approved Pictogram 5:}

Remove or Cover Exposed Food.

Step 2: Preparation:

Cover wood floors and wood furniture in the immediate area around the fogger with newspapers or a drop cloth. Open cabinets, cupboards, drawers, closets and doors in areas to be treated to allow maximum kill in all areas where insects can hide and breed. Close outside doors and windows. Shut off fans, air conditioners and ventilation equipment to maximize killing power of fog. Place a chair, small table or stand in the center of the room to be treated and cover with newspaper. One 3 ounce canister of fogger [Each 3 oz. can] will treat a room 20' x 20' with an 8-foot ceiling [(3,000 cubic feet)]. Use only 1 canister for each 3,000 cubic feet of space. Fill out and place hang-tag on the door to the treated area to alert family members and others with access to the treated area not to enter for 2 hours after treatment.

[One 4 ounce canister of fogger [Each 4 oz. can] will treat a room 23' x 22' with an 8-foot ceiling [(4,000 cubic feet)]. Use only 1 canister for each 4,000 cubic feet of space.]

[One 5 ounce canister of fogger [Each 5 oz. can] will treat a room 25' x 25' with an 8-foot ceiling [(5,000 cubic feet)]. Use only 1 canister for each 5,000 cubic feet of space.]

[One 6 ounce canister of fogger [Each 6 oz. can] will treat a room 30' x 25' with an 8-foot ceiling [(6,000 cubic feet)]. Use only 1 canister for each 6,000 cubic feet of space.]

[One 7 ounce canister of fogger [Each 7 oz. can] will treat a room 35' x 25' with an 8-foot ceiling [(7,000 cubic feet)]. Use only 1 canister for each 7,000 cubic feet of space.]

[One 7.5 ounce canister of fogger [Each 7.5 oz. can] will treat a room 37' 6" x 25' with an 8 foot ceiling [(7,500 cubic feet)]. Use only 1 canister for each 7,500 cubic feet of space.]

[One 8 ounce canister of fogger [Each 8 oz. can] will treat a room 40' x 20' with an 8 foot ceiling [(8,000 cubic feet)]. Use only 1 canister for each 8,000 cubic feet of space.]

Step 3: To Start Fogging:

Shake Well Just Before Using. To Operate Valve: Point fogger away from face and eyes when releasing (container sprays straight up). To lock valve in open position for automatic discharge, firmly press valve button down, hooking the catch [until it snaps into place]. Then place the fogger on the stand or table in the center of the room.

Do not re-enter for 2 hours.

Step 4: Airing Out:

Do not remain in the treated area; **immediately vacate the treated house, individual apartment unit or other structure and remain outside.** Do not allow adults, children or pets to re-enter the treated area/structure for a minimum of 2 hours to ensure the vapors, mists and aerosols have dispersed. Thoroughly ventilate the treated area before reoccupying. If an odor is still detectable after 2 hours, additional ventilation is required.

{EPA Pre-Approved Pictogram 6:}

Air Out the Room Before Entering.

To Kill Ticks and Fleas: Destroy pet's old bedding and replace with clean, fresh bedding after treatment is completed. Use product as above. Treat pets with a flea and tick control product registered for use on pets prior to allowing pets to reenter treated premises. Also treat your yard with a flea and tick control product registered for yard application. **This product does not control bed bugs.**

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry (preferably locked) area away from food, pet food and sources of heat or ignition. **Pesticide Disposal:** Wastes resulting from the use of this product may be disposed on site or at an approved waste disposal facility. **Pesticide/Container Handling:** Do Not Incinerate or Puncture! **If empty:** Offer for recycling if available; otherwise discard in trash. [This container may be recycled in aerosol recycling centers. At present, there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label.] **If partly filled:** Call your local solid waste agency for disposal instructions.

{Per PR Notice 2007-4 the batch code/lot number will appear on the label or container.}

{Door Knob Hang Tags provided at point-of-purchase:}

Fill out and place hang-tag on the door to the treated area to alert family members and others with access to the treated area not to enter for 2 hours after treatment.

Do Not Enter Until _____ {time} on _____ {date}

{Label copy will be both English and Spanish text}
