- c. Your data matrix does not provide a dielectrical breakdown voltage; therefore, the following statement must be added to the "Physical or Chemical Hazards" section:

Do not use this product in or on electrical equipment due to the possibility of shock hazard.

3. For the storage and stability data requirement, you may not reference another product even though it may be substantially similar. Since you are manufacturing this product yourself, the storage stability study must be conducted specifically on this product. It must be analyzed for its active ingredients at time zero and during 1 year of storage. The storage should be at warehouse conditions of temperature and humidity and stored in the product's commercial packaging. The study must be submitted within 15 months of the date of this Registration Notice.

4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
