Net weight 1 lb. 2 ozs.

Manufactured by:

**AERO MIST, INC.  
800 Industrial Park Drive  
Marietta, Georgia 30067**

(BACK PANEL)

DIRECTIONS FOR USE

To kill, houseflies, mosquitoes, moths, gnats, fleas, roaches, silverfish, ants, bedbugs, spiders, centipedes, and accessible flying forms of grain infesting insects (the Angoumois Grain Moth, Mediterranean Flour Moth, Indian Meal Moth), accessible flying forms of stored product pests (Tobacco Moth), and also crawling Flour Beetles, Carpet Beetles, Drug Store Beetles and Weevils; close all doors and windows. Point nozzle upward and direct the aerosol mist to all parts of the area to be treated. Fog particularly well in areas in which these insects are most likely to congregate or nest. Fog at the rate of 3 seconds per 1000 cubic feet of space. Best results are obtained when sprayed directly on crawling insects.

Keep the treated area closed for 15 minutes. Do not remain in treated areas and ventilate the area after treatment is completed. Do not spray closer than 36 inches to fabrics or upholstery. Spraying closer than directed or excessive treatment may cause damage.

**CAUTION:** Do not apply directly to food. Cover or remove all food and food processing equipment during application. Use this product as a space spray in food processing plants only when plant is not in operation. All food processing surfaces should be covered or thoroughly washed with potable water before using. Remove pets, birds and cover fish aquariums before spraying.

**WARNING:** Contents under pressure. Do not puncture container. Do not store at temperatures exceeding 120°F. Do not incinerate or spray into open flames.

ACTIVE INGREDIENTS:.....14.7%  
  Cyrethrins.....0.50%  
  Piperonyl butoxide, technical.....1.00%  
  n-Octyl bicycloheptene dicarboxinide..1.67%  
  Petroleum distillate.....11.53%  
INERT INGREDIENTS:.....85.3%
