EPA Reg. No. 10807-2

EPA Est. No. 10807-G-1

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION

Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.

Do not apply directly to food. In commercial food handling facilities, cover or remove any food and food processing equipment during application. Do not apply while food processing is underway. After space spraying in food processing plants, wash all equipment, benches, shelving, etc. where exposed food will be handled, with potable water. All food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use.

Physical Hazards

Contents under pressure. Keep away from heat, sparks or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE BEFORE USE. HOLD CONTAINER UPRIGHT. APPLY IN SHORT BURSTS.

To Kill ~~House Flies~~ Mosquitoes, Gnats, Wasps, Hornets, Sandflies, Flying Moths: Close all doors and windows and direct spray upward into center of a room with a low, sweeping motion. Spray 5 to 10 seconds for average room (1,000 cu. ft.). Keep nozzle three feet from surfaces. Vacate premises. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry.

To Kill Roaches, Waterbugs, Silverfish, Crickets, Ants, Scorpions, Centipedes, Sowbugs, Spiders, Fleas: Spray baseboards, cracks, crevices, moist areas and openings around sinks and pipes and other hiding places, hitting the insects directly. Spray ant hills and ant trails around windows and door sills and other locations. For fleas, thoroughly spray animal quarters and sleeping area. Do not spray pets. Pets should be treated with a registered flea and tick control product before re-entering area. Repeat as necessary.

To Kill Clothes Moths, Carpet Beetles: Spray all articles to be protected, giving particular attention to folds and seams. Spray interior of storage containers such as closets, chests and trunks regularly. Treatment should be repeated every thirty days unless the articles are stored in moth-tight containers.

To Kill Bedbugs: Spray mattresses thoroughly, especially around seams and tufts. Spray bedstead, baseboards and floorboards. Repeat as needed.

STORAGE AND DISPOSAL

Storage: Store in a cool area away from heat and open flame.

Disposal: Do not reuse empty container. Wrap container and put in trash collection.

Mr. Money M. Jackson
 AIREP, Inc.
 990 Industrial Park Drive
 Marietta, GA 30062

Dear Mr. Jackson:

Subject: Aero Insecticide Mist
 EPA Registration No. 10307-2
 Your amended application of November 10, 1982

The proposed product name change, "Misty Dual Synergist Insecticide" is acceptable and will be made a part of our records.

We have no objection to the formulation change. It is our understanding that this product under the new formula is to replace the old product accepted for registration on August 26, 1970. The Regulations for the Enforcement of the Act provided that after the effective date of a change in claims or formula, the product shall be marketed only under new claims or formula, except that a reasonable time may be permitted to dispose of properly labeled stocks of old product.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

Note: The following changes on the label should be made within 75 days and submit five copies of the revised labels to the Agency for our records.

1. The requirements for Fire-hazard Cautions for pressurized Containers are based on flame extension, the flash point of the nonvolatile component, and flashback.

(a) If there is a flashback at any valve opening, or if the nonvolatile component has a flash point less than 20°F, the required wording is:

Extremely Flammable. Contents under pressure. Keep away from fire, sparks, and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

CONCURRENCES							
SYMBOL	▶ 7470						
SURNAME	▶ H. Howard						
DATE	▶ 1-28-83						

- b. If the flash point is above 20°F and not over 80°F or if the flame extension is more than 18 inches long, at a distance of 6 inches from the flame, the requirement is:

Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

- c. All other pressurized cans require the following:

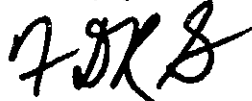

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

It appears that (c) applies to this product.

This also acknowledges receipt of your amendment application and your Statement certifying that the packages listed below meet the standards of 40 CFR 162.16(d) for special packaging for the registration.

This information has been made a part of the records for this registration.

Sincerely yours,

Franklin D. R. Gee
Product Manager (17)
Insecticide-Rodenticide Branch
Registration Division (TS-767)
