Ms. Susan Watson
Amrep, Inc.
990 Industrial Park Drive
Marietta, GA 30062

Dear Ms. Watson:

Subject: Amendment - Label Revision
Misty Powder Puff Residual Insecticide
EPA Registration No. 10807-33
Your Application Dated March 2, 1992

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes indicated below prior to release for shipment of product bearing the amended labeling.

1. Add the statement, **Corrosive: Causes eye damage**, to the beginning of the Hazards to Humans and Domestic Animals.
2. Add the qualifier, **(non-occupied patient areas)**, after the site, **HOSPITALS**.
3. Under the Statements of Practical Treatment, highlight the phrases, **If IN EYES** and **IN SWALLOWED**.
4. Under Storage and Disposal section, add the statement: **"Do not incinerate or puncture."**

Submit five copies of your final printed labeling before you release the product for shipment. A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

George T. LaRocca
Product Manager 13

Pyrethrins	0.10%
*Piperonyl butoxide, technical	1.00%
Silica Gel	4.00%
INERT INGREDIENTS:	94.90%
TOTAL:	100.00%

*Equivalent to 0.6% (butylcarbitol)(8-propylpiperonyl) ether and 0.2% related compounds.

Drione-Registered trademark of Fairfield American Corp.

FOR COMMERCIAL/INDUSTRIAL USE
NONCONDUCTIVE UP TO 34,000 VOLTS

KEEP OUT OF REACH
OF CHILDREN
DANGER

Harmful if swallowed. Causes eye
damage. See side panel for
Statement of Practical Treatment
and additional precautions.

NET WT. 14 OZ.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

DANGER: Harmful if swallowed or absorbed through the skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. Wear goggles or face shield and rubber gloves when handling. In case of contact, immediately flush eyes with plenty of water. Obtain medical attention if irritation persists. Do not apply directly to food. In commercial food handling facilities, cover or remove any food and food processing equipment during application. Do not apply while food processing is underway. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets, birds and cover fish aquariums before spraying.

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Flush eyes with plenty of water. Get medical attention, if swallowed: Call a physician or Poison Control Center immediately. Gastric lavage may be indicated if material was taken internally. **DO NOT INDUCE VOMITING:** vomiting may cause aspiration pneumonia. **IF INHALED:** Remove victim to fresh air. Apply artificial respiration if indicated. **IF ON SKIN:** Remove contaminated clothing and wash affected areas with soap and water.

PHYSICAL OR CHEMICAL HAZARDS: EXTREMELY FLAMMABLE! Do not use or store near fire, sparks or heated surfaces. Turn off pilot lights in gas appliances and unplug or turn off electrical equipment in the use area. After airing out phase is completed, re-light pilot lights and reconnect electrical current. Do not smoke in the use area. Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Incineration of container may cause explosion.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE: Store in a cool area away from heat or open flame. **DISPOSAL:** Do not reuse empty container. Wrap container and put in trash collection.

SHAKE WELL BEFORE AND AT INTERVALS DURING USE.

TO OPERATE: Remove cap. Hold can upright. Aim valve from about 13 inches from area to be sprayed and depress button. Avoid heavy deposits on finished surfaces.

FOOD HANDLING ESTABLISHMENTS: Places other than private residences in which exposed food is held, processed, prepared or served.

FOOD AREAS - APPLICATION LIMITED TO CRACK AND CREVICE TREATMENT ONLY: Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups) and serving areas (when food is exposed and facility is in operation).

TO CONTROL ANTS, COCKROACHES, SILVERFISH, CRICKETS AND CENTIPEDES: Apply in small amounts directly into cracks and crevices using an insertion tube in points between different elements of construction, motor housings, junction or switchboxes and bases in conduits, air conditioners, breaker boxes, relays, meters, light housing, water pump housing and swimming pool motors. Prior to application, de-energize electrical equipment. After application, allow time for oil to evaporate before starting motors or placing switches in "ON" position. Care should be taken to avoid depositing the insecticide onto exposed surfaces or introducing it into the air. Avoid contamination of food or food processing surfaces. **APPLICATION OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A CRACK AND CREVICE TREATMENT IS NOT PERMITTED.**

SERVING AREAS: Facilities where foods are served such as dining rooms, but excluding areas where food may be prepared or held, apply as a spot treatment to selective surfaces and into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed).

NON-FOOD AREAS: Including garbage rooms, lavatories, floor drains (to sewers), offices, locker rooms, and storage (after canning or bottling). Apply as a spot treatment to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter. Repeat treatment as required.

TO CONTROL FLEAS: In animal quarters, treat bedding, floor and floor coverings and any areas where fleas may hide. If left undisturbed, a deposit of this product will continue to kill fleas for several weeks. Repeat application when effectiveness diminishes.
