

JAN 10 1989

Amrep, Inc.
990 Industrial Park Drive
Marietta, GA 30062

Attention: Toney M. Jackson

Gentlemen:

Subject: MISTY MIZER AIR SANITIZER for Time Dispensing Units -
MINT FRAGRANCE
EPA Registration No. 10807-38
You. Submission Dated October 1, 1987
EPA Received Date January 6, 1989

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, Rodenticide Act, is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling.
 - a. A contact time of at least 1 minute is required for sanitization.
 - b. On the center panel, revise the referral statement to read:

See side panel for additional precautionary statements.
2. Submit five (5) copies of final printed labeling before you release the product for shipment. Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Enclosure

ACCEPTED
with COMMENTS
in EPA Letter Dated:

JAN 20 1989

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide
registered under EPA Reg. No.

10807-38

This unit is specially designed for use in closed areas where the control of odors is important. It will aid in the control of odors such as body odor, stale smoke, and cooking odors. It should be used in restrooms, dining rooms, serving areas, halls, lounges, offices, locker rooms, schools as well as most public or private areas where odor control is needed.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.

Open the door of the cabinet and remove used can if the machine has been previously used. With the valve opening pointed toward you, place the new can in the cabinet and snap in place. Step to one side then turn control switch to "ON" position and push switch to test operation. The machine should operate one full cycle and dispense one shot of spray. Close the cabinet door. The unit contains 3400 controlled sprays for use in closed areas that will last for 30 days when used on a 24 hour basis, or 60 days if used 12 hours per day when set to dispense every 15 minutes. One unit is recommended per 6000 cubic feet of space. Air movement and ventilation rate may vary this somewhat.
