

PH 31 10807-38

10/1

210-12M

This unit is especially designed for use in closed areas where the control of odors is important. It will aid in the control of odors such as body odor, stale smoke, and cooking odors. It should be used in restrooms, dining rooms, serving areas, halls, lounges, offices, locker rooms, schools, as well as most public or private areas where odor control is needed. One unit is recommended per 6000 cubic feet of space. Air movement and ventilation rate may vary somewhat.

DIRECTIONS FOR USE

Open the door of the cabinet and remove used can if the machine has been previously used. With the valve opening pointed toward you, place the new can in the cabinet and snap in place. Step to one side, then turn control switch to "ON" position and push switch to test operation. The machine should operate one full cycle and dispense one shot of spray. Close the cabinet door. The unit contains 3400 controlled sprays for use in closed areas that will last for 30 days when used on a 24 hour basis, or 60 days if used 12 hours per day when set to dispense every 15 minutes.

PRECAUTIONARY STATEMENTS: Hazards to Humans & Domestic Animals

WARNING: Avoid contact with skin or eyes. In case of contact, immediately flush eyes with plenty of water. Avoid inhalation of spray mist. Do not use in nurseries or rooms where infants, ill or aged patients are confined. Food, food contact surfaces and utensils should be protected from exposure to the spray or rinsed with potable water before reuse.

PHYSICAL OR CHEMICAL HAZARDS:

Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.
