

WASP & HORNET KILLER

**JET STREAM UP TO 15 FT.
NON-CONDUCTIVE UP TO
18,500 VOLTS**

**KEEP OUT OF REACH OF CHILDREN.
CAUTION**
See back panel for additional cautions.
NET WT. 18 OZ. (1 LB. 2 OZ.)

Kills Wasps, Hornets and Yellow Jackets. This spray is fast acting when insects are hit directly. Allow about 24 hours for those insects which were not directly hit by spray to leave the area. If insects should return to the treated area, spray again. This container delivers a stream type spray, making it possible for the operator to stay back from the place sprayed. Good for use around food processing plants, restaurants, farms, utility poles and houses.

This formulation utilizes pyrethrins, piperonyl butoxide and a carbamate type insecticide, a combination particularly effective on the class of insect.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To Operate: remove protective cap and depress button, being sure to aim spray opening at the location to be sprayed. Direct spray at insects wherever possible, and under eaves, into nests, cracks, holes or crevices where insects are noticed. Spray for about 10 seconds or until surface is moist from insecticide. To prevent entrance of insects into the house, spray around points where outside plumbing faucets enter the house and into any cracks and crevices in foundation as well as along sills and ledges.

CAUTION: Do not use on plastic, styrofoam or auto paint.

STORAGE & DISPOSAL

STORAGE: Store in a cool area away from heat or open flame.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.
