

This product is recommended for use only on non-cropland areas such as industrial sites, around water meters, cracks in sidewalks, fence rows, parking lots, around buildings, loading ramps, storage yards, tank farms and other confined areas where total vegetation kill is desired.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE and DISPOSAL

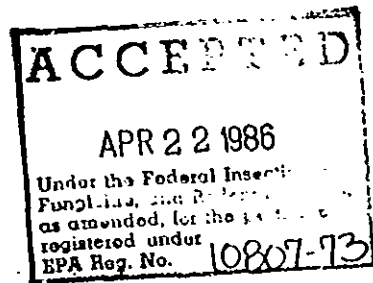

STORAGE: Store in a cool area away from heat or open flame.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.

DIRECTIONS:

Shake can well before using. To Operate: turn dispenser upside down, point valve opening toward area being treated. Press valve to release spray.

This product is a liquid, non-selective, persistent, general herbicide designed for use where control of all vegetation is desired. Apply in late spring after the most predominant weeds have emerged. Apply in such a spray pattern to wet out the weed completely. The amount to use is dependent on the surface area of the weed to be controlled. The frequency of the application required depends on the soil type, rainfall, and other natural conditions. Repeat as necessary.
