PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin or eyes. In case of contact immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists. If swallowed do not induce vomiting. Call a physician immediately.

Do not apply directly to food. In commercial food handling facilities, cover or remove any food or food processing equipment during application. Do not apply while food processing is underway. After spray spraying in plants and other food processing plants, wash all equipment, benches, shelving, etc. where exposed food will be handled, with potable water. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Remove pets, birds and cover fish aquariums before spraying.

PHYSICAL and CHEMICAL HAZARDS: Contains under pressure. Do not puncture. DO NOT USE OR STORE NEAR HEAT OR OPEN FLAME. Exposure to temperatures above 120° F may cause bursting. Never throw container into fire or incinerator.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For use in and around hotels, motels, homes, greenhouses and hothouses, food handling establishments, packaging and processing plants, seed houses, outdoor and indoor, utility, institutional and storage buildings, with handling areas of milk, cheese and ice cream plants, milk storage rooms, egg processing plants, egg-mar-bate restaurants, bottling plants, confection flour and food mills, bakeries, beach club cabins and hospitals. In hospitals, patients should be removed prior to treatment. Also for use in homes, automobiles, trucks, barns and ship cargo holds. Also for use in dog kennels and horse stables. In horse stables, not for application if horses will be used for food.

In food handling areas, food should be removed or covered previous to treatment. All food processing surfaces should be covered or thoroughly cleaned before using. Apply only when facility is not in operation.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.

Remove protective cap. Aim spray opening away from person. Push button to spray.

For household and industrial use - in and around premises

INDOORS To kill WASPS, HORNETS, YELLOW JACKETS, BEES Application should be made late in the evening when insects are at rest. Spray liberally into hiding and breeding places, particularly under eaves, containing as many insects as possible. Saturate areas in and around nest openings. Repeat as necessary.

To kill ANTS, COCKROACHES, SPIDERS, BARNWIGS, GRASSHOPPERS, BOWFLIES, CRICKETS, BEETLES, SILVERFISH, CENTIPEDS, MILLIPEDES Direct spray to contact these insects in cracks and crevices in floors, baseboards, around pipes, behind cabinets and other harborage. Spray and infested areas until thoroughly wet. Repeat as necessary.

To kill ANTS Spray directly on insects and around window frames, doors and trails and hills.

To kill SPIDERS Spray directly on these pests and use repeated applications to the webbing and all cracks and crevices which harbor spiders.

OUTDOORS Apply as a contact spray. Spray directly on insects. Aim spray opening away from person. Avoid spraying plants or turf except to spray infested areas.

To kill ANTS Same as directed above for indoor use.

To kill WASPS, HORNETS, YELLOW JACKETS, BEES Same as directed for indoor use. Aim spray at nest openings in trees, bushes, under eaves, chimneys, cracks and crevices to saturate in and around the nest openings. Contact as many insects as possible. Repeat as necessary.

To kill BARNWIGS, BOWFLIES, CRICKETS, BEETLES, SILVERFISH, CENTIPEDS, MILLIPEDES Apply as contact spray as for indoor use.

To kill TENT CATERPILARS Application should be made when caterpillars are young and tents are first noticed. For best results apply in the late afternoon or evening when caterpillars have returned to their tents. Aim spray directly at tents and tentily saturate on all sides. Repeat as necessary.
