QUAT-22

MISTY

Quat-22

• Fungicide • Disinfectant • Deodorant • Cleaner • Sanitizer

ACTIVE INGREDIENTS	
Sodium metasilicate	3.0%
n-Alkyl (50% C14, 40% C12, 10% C18) dimethyl benzyl ammonium chloride	1.5%
INERT INGREDIENTS	95.5%
TOTAL	100.0%

KEEP OUT OF REACH OF CHILDREN
DANGER

STATEMENT OF PRACTICAL TREATMENT
SKIN CONTACT: Remove contaminated clothing and wash affected area with soap and water. **EYE CONTACT:** Flush eyes with plenty of clear water. Contact physician if irritation persists. **INGESTION:** Drink promptly large quantities of milk, egg whites beaten with water, gelatin solution or clear water. Seek medical attention. **NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

Use only as directed. See added cautions on side panel.

GENERAL INFORMATION: This product is an effective antibacterial cleaner designed for use in household, industrial and institutional cleaning. When used as directed it will disinfect hard surfaces such as floors, walls, countertops and furniture. It may be relied upon to deodorize bathroom areas, garbage pails, food storage areas, kennel areas and other areas where obnoxious odors may develop. This product may be used as a general purpose antibacterial antifungal detergent in homes, schools, restaurants, hospitals, nursing homes, public rooms, food processing plants and in other places where efficient cleaning and antimicrobial action is desired. This product is not to be used as a terminal/sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive. Harmful if swallowed. May cause eye damage or skin irritation. Avoid contact of product with eyes or skin. Avoid contamination of food. In food processing or handling facilities, all surfaces, equipment and utensils must be removed, covered or thoroughly rinsed prior to reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Treated effluent should not be discharged into lakes, streams, ponds, or public waters. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTION: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
For Cleaning: Lightly Soiled Areas- Surfaces to be cleaned should be mopped or brushed with a solution containing 3 ounces of product per gallon of water. Rinse cleaned area with fresh water. **Heavily Soiled Areas-** Mop or brush soiled surface with a solution containing 5-6 ounces of product per gallon of water. Rinse cleaned surface with fresh water.

General Purpose Disinfection: To disinfect walls, floors, and other hard surfaces in homes, schools, restaurants, rest rooms and other public areas, mop or brush surface to be treated with a solution containing 3 1/2 ounces of product per gallon of water. Surfaces that are heavily soiled should be cleaned with 2 ounces of product per gallon of water and then disinfected. Those surfaces which may later come in contact with food must be rinsed with clear water of drinking quality. To disinfect locker rooms, shower stalls, walkways around pools and other areas against pathogenic fungi, mop area with a solution containing 2 ounces per gallon of water. This solution will destroy *Trichophyton interdigitale*, a causative agent of athlete's foot.

Hospital Disinfection: To disinfect walls, floors, furniture and other hard surfaces in hospitals and nursing homes, mop or brush to thoroughly wet for at least 10 minutes, surfaces to be treated with a solution containing 5 1/2 ounces of product per gallon of water. Those surfaces that are heavily soiled with blood, fecal material or exudates should be thoroughly scrubbed with a solution containing 2 ounces of product per gallon of water and then rinsed with a fresh solution containing 2 ounces of product per gallon of water before disinfecting.

Food Processing Equipment: To sanitize walls, floors and equipment in food processing plants, first clean thoroughly with a solution containing 3 ounces of product per gallon of water. If surface is heavily soiled use product at a rate of 5-8 ounces per gallon to insure thorough cleaning. Sanitize cleaned surface with a rinse solution containing 1 1/2 ounces of product per 1 gallon of water. For this type of use a terminal rinse of potable water is required.

Deodorization: To deodorize surfaces during cleaning, mop or brush surfaces with a solution containing 7 ounces of product per gallon of water.

STORAGE AND DISPOSAL: STORAGE: Do not expose product to temperature extremes. Store product in original shipping container in a locked storage area. Keep container closed when not in use. Do not contaminate water, food or feed by storage or disposal. **PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. In the event of a spill or leak, contain product with a dry absorbent and dispose of in accordance with state or local regulations. Wear protective clothing during cleanup procedures. **CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill by other procedures approved by state and local authorities.
