Ms. Toney M. Jackson
 Amrep, Inc.
 990 Industrial Park Drive
 Marietta, GA 30062

Dear Ms. Jackson:

Subject: Amendment - Label Update
 Misty Fenvaler Fog
 EPA Registration No. 10807-122
 Your Application Dated October 1, 1987

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable, provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling.

1. Delete "Fenvaler" from the product name. A name based upon only one of the active ingredients is not acceptable.
2. Delete "Petroleum distillate" from active ingredient portion of this label and include in the total percentage of inert ingredients since this component of the formulation is a solvent.
3. Add an asterisk to INERT INGREDIENTS* and a footnote "*Contains Petroleum distillate."
4. Delete "General Classification."
5. A Statement of Practical Treatment must be added to the labeling.

Sincerely yours,

George T. LaRocca
 Product Manager (15)
 Insecticide-Rodenticide Branch
 Registration Division (TS-767C)

in EPA Letter Dated:

MAY 11 1988

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

10807-122

This product will kill Cockroaches, House-
flies, Confused Flour Beetles, Saw-toothed
Grain Beetles, Rice Weevils, Small Flying
Moths, Fleas, Ticks, Pill Bugs, and Crickets.
Cover exposed food, dishes and food
handling equipment. Open cabinets and
doors to area to be treated. Shut off fans
and air conditioners. Put out all flames and
pilot lights. Close doors and windows. Point
valve opening away from face and eyes
when releasing. Use one unit for each 6,000
cubic feet of unobstructed area. Use addi-
tional units for remote rooms or where free
flow of mist is not assured. Do not remain in
the area during treatment and ventilate thor-
oughly before re-entry.

To operate valve: To lock valve in open
position for automatic discharge, press
valve button all the way down, hooking the
catch. Then place fogger on stand or table
in the center of the room with valve locked
open, placing several layers of newspaper
or pad under fogger. Leave building at once
and keep building closed for four hours
before airing out. Open all doors and win-
dows and allow to air for 30 minutes.
Repeat spraying in two weeks or when
necessary.

To kill Ticks and Fleas: Destroy pet's old
bedding and replace. Use product as above.
Do not use this product on pets. Instead,
treat pets with an EPA registered tick con-
trol product bearing directions for direct
application.
