Dear Ms. Watson::

Subject: Revised, Updated Labeling  
Misty Flea Killer  
EPA Registration Number 10807-123  
Submission dated May 26, 1992

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Submit one (1) copy of the finished labeling prior to releasing the product for shipment.

1. Revise the active ingredient declaration for Sumithrin to read as follows:  
  
3-phenoxybenzyl-(1RS, 3RS; 1RS, 3SR)-2,2-dimethyl-3-(2-methylprop-1-enyl) cyclopropanecarboxylate . . . . . C.478%
2. Delete "Other isomers" from the ingredients statement and combine this percentage with the total percentage for the active ingredient. Do not list "other isomers" separately.  
  
Refer to the ingredient statement on the label copy approved August 7, 1990.
3. Delete the term GENERAL CLASSIFICATION from the product label.
4. Add a **STATEMENT OF PRACTICAL TREATMENT** section to the product label which provides appropriate treatment information regarding the various routes of exposure (refer to 40 CFR part 156 for guidance).

Sincerely,

*RFM*
